

## AN-48 SUPPLIER'S FIRST-PIECE INSPECTION REPORT

---

Seller shall furnish with first/initial production run shipment a copy of their documented First Piece Inspection Report. The report shall be of Seller's format and shall document required and actual dimensional/lot acceptance functional characteristics per the item specification. First-Piece Report shall also identify the purchase order/contract, basic part number, dash number, and change letter of the furnished items and shall clearly document the supplier's inspection acceptance of the First Piece, evidenced by an inspection stamp, or an inspection signature.
