

FLYSHEET AN-9C
SELLER CERTIFICATE OF CONFORMANCE AND DATA
FOR MIL-STD-883, CLASS B MICROCIRCUITS

Seller shall include with each shipment of articles ordered hereunder, a Certification of Conformance stating that:

- A. All devices conform in their entirety with Seller's governing specifications.
- B. All devices supplied with this order comply with paragraphs 1.2.1 and 1.2.2 of MIL-STD-883, Class B devices.
- C. All devices have been accepted by Seller's final inspection function.

Said dated certification must be signed or stamped by Seller's Quality Assurance Manager or his authorized delegate.

The Certification of Conformance shall contain the following minimum information:

1. Buyer's Purchase Order Number
2. Manufacturer Name
3. Manufacturer's Part Number
4. Lot Date Code
5. Solderability Testing Date

In addition, Seller shall provide with each certificate of conformance, a copy of the Attributes Data for the 100% Screening and Quality Conformance Testing of supplied parts. Said data shall be traceable to the manufacturer inspection and wafer lots.
