information that would ordinarily be entitled to confidential treatment may be included in the information released to these individuals. Accordingly, by signature on this subcontract, the Seller hereby consents to a limited release of its confidential business information (CBI).

(2) Possible circumstances where the Agency may release the contractor's CBI include the following:

(A) To other Agency contractors and subcontractors, and their employees tasked with assisting the Agency in handling and processing information and documents in the administration of Agency contracts, such as providing post-award audit support and specialized technical support to NASA.

(B) To NASA contractors and subcontractors, and their employees engaged in information systems analysis, development, operation, and maintenance, including performing data processing and management functions for the Agency.

(3) NASA recognizes its obligation to protect the contractor from competitive harm that could result from the release of such information to a competitor. Except where otherwise provided by law, NASA will permit the limited release of CBI under subparagraphs (e) (2) (a) or (e) (2) (b) only pursuant to non-disclosure agreements signed by the assisting contractor or subcontractor, and their individual employees who may require access to the CBI to perform the assisting contract.

(4) NASA's responsibilities under the Freedom of Information Act are not affected by this clause.

(5) The Seller agrees to include this clause, including this paragraph (e) (5), in all subcontracts at all levels awarded pursuant to this contract that require the furnishing of CBI by the subcontractor.

(f) **ACCESS TO CONTRACTOR DATA** [Prime Contract H.43]. This clause applies to all cost type subcontracts valued at \$1,000,000 or more, however, the flowdown requirement applies to all subcontracts.

(1) "Data" for purposes of this clause, means recorded information, regardless of the form or media on which it may be recorded by the Seller or its subcontractors. The term includes technical data; computer software; and information incidental to contract performance. Types of data contained in the definition also include the results of Seller internal audits of any discipline, procedures, system, or task which directly or indirectly supports the performance of this contract as well as data from any audit of subcontractor(s) performing this contract. The term is limited to data that is archived as a normal part of Seller performance.

(2) The Contracting Officer or designee shall, through closeout, have access to and the right to examine any of the data produced or specifically used in the performance of this contract. The purpose of this access provision is to permit sampling of Seller data to

verify requirements compliance and continuous improvement without unduly increasing the number of data deliverables to this contract.

(3) The Seller shall make available at all reasonable times for Government inspection the most current data produced or used in the performance of this subcontract for examination.

(4) Notwithstanding the Additional Data Requirements clause, the Government shall have the right to reproduce any data found during the examination that it wishes to retain. The Government or the Buyer will reimburse reproduction costs only when the Government uses Seller equipment for the reproduction. The Government shall retain no greater rights in the reproduced data than it would have under the Rights in Data--General clause.

(5) The Seller shall flow this clause to all cost type subcontracts valued at \$1,000,000 or more.

(g) **GOVERNMENT INSIGHT** [Prime Contacts H.44]. This clause applies to cost type subcontracts with valued at \$1,000,000 or more.

(1) Definitions. For the purpose of this contract, the following definitions apply:

“Insight,” as used in this clause, means technical visibility into the Program, maintained through audit, surveillance, assessment of trends and metrics, software independent verification and validation, the flight readiness review process, and review or independent assessment of out-of-family anomalies occurring in any phase of the program.

“Surveillance,” as used in this clause means continual monitoring and verification of the status of manufacturing, testing, and processing of Station hardware, software and operations preparations to ensure that requirements are being fulfilled. Items to be monitored and verified are selected—this is not an all inclusive activity.

“Audit,” as used in this clause, means the implementation of procedures and requirements of the NASA Engineering Quality Audit (NEQA) or other equivalent audit techniques used to perform periodic audit of all aspects of processes and procedures required to manufacture, assemble, test, and process hardware for flight. Audits may include an examination of all disciplines and tasks which are involved with or support Shuttle launch and landing operations, hardware and software production and maintenance, safety and quality assurance, logistics, procurements and operations. These descriptions are illustrative only and shall not be construed as any limitation on the Government’s right to conduct an audit of the Buyer, the Seller, and the Seller’s subcontractors to determine performance on this contract.

(2) The Government shall have the right to audit the Seller and the Seller’s cost reimbursement subcontractors (with values exceeding \$1,000,000) to determine compliance with the requirements of this contract. One purpose of these audits is to

afford the Government insight into and understanding of Seller and selected Seller subcontractor processes and procedures to determine whether the processes or procedures (1) adversely affect safety; (2) are not within contract performance standards; or (3) adversely affect future launch schedules.

(3) The Government or the Buyer may schedule fact-finding meetings with the Seller and the Seller's subcontractors as necessary to discuss issues requiring Government insight. Scheduling and format of these meetings shall indicate whether exchange of information will be required, and the number and expertise of Buyer, Seller, and subcontractor personnel who shall attend the meetings. When requested by the Contracting Officer or designee, or by the Buyer, the Seller and the Seller's subcontractors shall provide necessary support to the Government when it audits the Seller or the Seller's subcontractor and for the Government-Buyer-Seller-Seller's subcontractor meetings. The purpose of these meetings is to understand the findings of the Government audits. The parties understand and agree that no direction from the Government or constructive change to the contract shall result from any of these meetings.

(k) **PACKAGING, HANDLING, STORAGE AND TRANSPORTATION OF FLIGHT HARDWARE.** This clause only applies to Flight Hardware. This clause does not apply commercial items or commercial components, as those terms are defined at FAR 52.202-1, unless they have undergone modifications, screenings or tests that are unique to items sold to NASA.

(1) Seller shall identify all special handling requirements associated with hardware, firmware, materials, devices, items, goods, and articles classified as Flight Hardware (or any similar designation of use in space or use on orbit, such as "ITEMS FOR SPACE FLIGHT USE") (hereinafter referred to as "Flight Items" or "Flight Hardware") purchased or leased on this contract. This identification shall be made on both the shipping document (or as an attachment to the shipping document) and on correlating packaging labels, placards, or large legible printed markings on the exterior of the packaging itself, designed to alert those handling, transporting, shipping, receiving, moving, stacking, unstacking, storing or processing (hereinafter referred to as "Handling") the Flight Items after the Flight Items leave the Seller's facility. If the Seller does not have labels that meet the intent of this clause, the Buyer will supply the required labels. Special Handling requirements include, but are not limited to, the following considerations:

(A) Special Handling instructions (where necessary to prevent damage or deterioration) such as instructions to fork lift operators on how to lift the Flight Item without damaging the Flight Item, "Do not drop", or "this end up" arrows.

(B) Electrostatic discharge (ESD) sensitive item warnings, for example, "Flight hardware; Electrostatic Discharge Sensitive (ESDS), handle IAW MILSTD-1686" or "EEE Part(s); ESDS Device; EMI shielding required".

(G) Cleanliness requirements or warning not to open except in a Clean Room environment (where the Flight Item is precision cleaned or for any reason should only be opened in a Clean Room environment).

(2) Flight Items that will be stowed for flight with no further processing shall be delivered ready for flight stowage by the Seller and annotated on the shipping document, i.e., "ready for flight; no further processing required". The fact that the item has been packaged with certified flight material(s) shall be marked in some manner on the inner packaging. If it is not feasible to mark the innermost packaging as flight certified material, then a note on the packaging material that is to be removed just prior to stowage shall state "Remove [insert items to be removed] before flight/stowage" OR "Remove [insert items to be removed] before flight/stowage except for [insert exceptions]".

(3) In the event Buyer provides specific labels, those labels shall be applied in accordance with the accompanying instructions to the packaging containing the Flight Items for which the labels were provided.

The information copy will be forwarded to the technical monitor of the contract at least four weeks in advance of the date the author intends to give the presentation or submit the article for publication.

The advance information copy may be submitted in the format or medium which will be utilized in its ultimate release.

Nothing in this clause waives any requirement in the General Provisions PUBLICITY article.

(r) PRICING OF COMMON ITEMS TO INTERNATIONAL PARTNERS {Prime contract H.6 and J-11}. This clause does not apply to commercial items, as that term is defined in FAR 2.101, or to items whose price is set by law or regulation.

(1) The Government has entered into agreements with International Partners (IP) which contemplates that certain space station "common items," previously intended to be procured by NASA, will now be acquired directly by the contractors of these organizations from the United States development contractor. These agreements provide, among other things, that NASA will take the necessary contractual steps to enable that common items can be procured by International Partner contractors for Space Station use, and to ensure that the recurring cost to such contractors consistent with the cost basis paid by NASA.

(2) In order to carry out the intent of the above, the Seller agrees as follows:

(a) If the Seller is requested by an IP contractor to submit a proposal for any item being supplied under this contract, the Seller agrees to estimate such items to such contractor consistent with the unit price or recurring costs estimated for such items in this contract; provided, however, that if there are differences in the circumstances under

which the items are being priced to the contractor (e.g., greater or lesser quantities, configuration changes, alternative business relationships, variances in schedule requirements, break in production, actual price experience, etc.), the Seller's estimate of the items may vary to the extent of such different circumstances.

(b) Each proposal provided to an International Partner contractor shall include a reference to the unit price or recurring costs estimated for such items in this contract as well as an explanation of any differences.

(c) Seller agrees to negotiate in good faith with any International Partner contractors desiring to buy items supplied under this contract, and to do so in a manner consistent with the terms of this clause.

(3) Seller will flow this clause to lower tier subcontracts to the extent practical and possible, except as noted below. This clause has no application to (1) contracts entered into prior to the effective date of this contract, (2) commercial items, as that term is defined in FAR 2.101, (3) items whose price is set by law or regulation, (4) non-deliverable tooling, non-deliverable shop aides, similar non-deliverable equipment, and similar non-deliverable software, or (5) non-deliverable items consumed in the manufacturing process.

(s) SYSTEM ADMINISTRATOR SECURITY CERTIFICATION PROGRAM {Prime contract H.41}

In addition to any other requirements of this contract, all individuals, contractors or subcontractors who perform tasks as a system administrator or have authority to perform tasks normally performed by system administrator shall be required to demonstrate knowledge appropriate to those tasks. This demonstration, referred to as the NASA System Administrator Security Certification, is a two-tier assessment to verify that system administrators are able to –

(1) Demonstrate knowledge in system administration for the operating systems for which they have responsibility.

(2) Demonstrate knowledge in the understanding and application of Network and Internet Security.
