H-7 Organizational Conflict of Interest - Protection of Proprietary Data .

It is recognized by the parties hereto that the effort to be performed by the contractor under this contract is of such a nature that it creates potential Organizational Conflicts of Interest such as are contemplated by FAR 9.5. It is the intention of the parties that the contractor will not engage in any activities that could cause a conflict of interest with its position under this contract or which may impair its ability to render unbiased advice and recommendations or in which it may have an unfair competitive advantage as a result of the knowledge, information, and experience gained during the performance of this contract.

For the purpose of this clause, the term 'contractor' means the contractor, its subsidiaries, and affiliates, any joint venture involving the contractor, any entity with which the contractor may hereafter merge or affiliate, or any other successor or assignee of the contractor.

Therefore the contractor agrees to enter into a written agreement with any firm whose proprietary data is used in connection with performance of this contract to protect all proprietary information from unauthorized disclosure or use for as long as it remains proprietary, to furnish the Contracting Officer with executed copies of all such agreements, and to refrain from using any proprietary information in supplying to the Government goods or services or for any purpose other than that for which it was intended. The contractor agrees that any data furnished by the Government to the contractor not generally available to other contractors shall be used only for performance under this contract, and all copies of such data shall be returned to the Government upon completion of the effort. Any data furnished by the Government containing trade secrets or commercial or financial data of other contractors shall be treated as proprietary data.

The contractor shall incorporate any Organizational Conflict of Interest provision into any subcontract let by the contractor in performance of this contract. Such provision shall include as a minimum the protection of proprietary data such as that required by this contract.
