(4) Validation of Asserted Restrictions – Data and Software

- (A) Seller shall maintain records sufficient to justify the validity of any markings that assert restrictions on Data or Software delivered or required to be delivered under this contract and shall be prepared to furnish to the Grants Officer a written justification for such restrictive markings in response to a request by the Grants Officer (which may be provided by Boeing to Seller) for such information.

- (B) Buyer agrees that the Grants Officer may transact matters under this clause directly with subcontractors or suppliers, at any tier, who assert restrictions on Data or Software. Neither this clause, nor any action taken by the Government under this clause, creates or implies privity of contract between the Government and Buyer's subcontractors or suppliers.
- (C) Requests for Information: The Grant's Officer may request Buyer (and in turn Seller) or Seller to provide sufficient information to evaluate Seller's asserted restrictions.
  - (i) Based upon the information provided, the Grants Officer may –
    - (aa) If Seller agrees that the asserted restriction is not valid,
      - (I) Strike or correct the unjustified marking at Seller's expense; or
      - (II) Return the Data or Software to Buyer (and in turn to Seller) or Seller for correction at Seller's expense, or
    - (bb) Conclude that the asserted restriction is appropriate for this Agreement, and notify Buyer (and in turn Seller) or Seller in writing.
  - (ii) Seller's failure to provide a timely response to a Grants Officer's (or Buyer's) request for information shall constitute reasonable grounds for questioning the validity of an asserted restriction.
- (D) Government Right to Challenge and Validate Asserted Restrictions
  - (i) The Government has the right to challenge any restrictions asserted by Buyer and/or Seller on Data or Software delivered or provided for system or hardware performance under the prime Agreement. Except for Data or Software that is publicly available, or has been furnished to the Government without restrictions, or has been otherwise made available without restrictions, the Government may exercise this right only within the later of three years after the date(s) the Data or Software is delivered or provided to the Government, or three years following final payment under the prime Agreement.
  - (ii) Only a Grants Officer's final decision or a court of competent jurisdiction that sustain the validity of an asserted restriction constitute validation of the restriction.
- (E) Challenge Procedures
  - (i) A challenge must be in writing and shall –
    - (aa) State the specific grounds for challenging the asserted restriction;
    - (bb) Require Buyer (and in turn Seller) or Seller to respond within 60 days; and
    - (cc) Require Buyer (and in turn Seller) or Seller to provide justification for the assertion, in sufficient detail to enable the Grants Officer to determine the validity of the asserted restrictions.
  - (ii) The Grants Officer shall extend the time for response if Buyer (on behalf of Seller) or Seller submits a written request with appropriate justification.

- (iii) The Grants Officer may request additional supporting documentation if, in the Grants Officer's opinion, Buyer's (or Seller's) explanation does not provide sufficient evidence to justify the validity of the asserted restrictions.
- (iv) Notwithstanding challenge by the Grants Officer, the Parties may agree on the disposition of an asserted restriction at any time prior to a Grants Officer's final decision or, if Buyer (or Seller) has appealed that decision at any time prior to a decision by a court of competent jurisdiction.
- (v) If Seller fails to respond to the Grants Officer's request (or Buyer's on behalf of the Grants Officer) for information, the Grants Officer shall issue a final decision, in accordance with the Disputes article of the prime Agreement, pertaining to the validity of the asserted restriction.
- (vi) If the Grants Officer determines that the asserted restriction has –
  - (aa) Not been justified, the Grants Officer shall issue promptly a final decision subject to the Disputes article of the prime Agreement denying the validity of the asserted restriction; or
  - (bb) Been justified, the Grants Officer shall issue promptly a final decision validating the asserted restriction.
- (F) The Government agrees, notwithstanding a Grants Officer final decision denying validity of the asserted restriction, that it will honor the asserted restriction for a period of 90 days, after which if there is no formal challenge to the decision, the Government may strike the restriction, remove the legends and there is no liability incurred by this action.

(5) Lower Tier Agreements

Seller shall include this article, suitably modified to identify the Parties, in all subcontracts regardless of tier, which require delivery Data or Software to be provided to the Government in the performance of the prime Agreement or this contract. Seller will not, as part of the consideration for awarding the subcontract, obtain rights in the lower tier subcontractor's Data or Software.

- (i) Design and Source Considerations; Clauses That Must be Considered in Both Design and Production Planning.

Buyer has been advised by its customer that the following DFARS clauses, while not required for the FCS SDD Agreement, will be mandatory under any subsequent contract for Long Lead Items, Low Rate Initial Production, or Production. To the extent that they are applicable to subcontractors, Seller shall consider these clauses in its planning for transition to production. Design limitations and supply chain management decisions required to comply with these clauses will be documented in sufficient detail, so that, in the event of any subsequent contract for Long lead Items, Low Rate Initial Production, or Production, compliance with the requirements of these clauses can be demonstrated.

- (8) 252.225-7031 Secondary Arab Boycott of Israel (APR 2003)
- (j) Termination Notification. This clause applies only if this contract exceeds \$500,000.
  - (1) Should the Government terminate work, or substantially reduce work, under the Agreement worth twenty-five (25%) percent or more of the total Agreement amount and Buyer has so notified Seller, Seller will provide appropriate notices, in accordance with Section 1372 of Pub L. 103-160 and Section 824 of Pub. L. 104-201, (i) to all potentially affected employees or their official representatives, (ii) to the State dislocated worker unit or entity designated by the State to carry out rapid response activities under section 134(a)(2)(A) of the Workforce Investment Act of 1998 (29 USC 2864(a)(2)(A)); (iii) to the chief elected official of the unit of general local government within which the adverse effect may occur, and (iv) to all subcontractors with subcontracts of \$100,000 or more.
  - (2) This notice to the employee shall have the same effect as a notice of termination to the employee for the purposes of determining eligibility for training, adjustment assistance, and employment services under section 325 or 325A of the Job Training Partnership Act (29 U.S.C. 1662d, 1662d-1), as specified by the act. If Seller specifies that the anticipated termination or reduction is not likely to result in plant closure or mass layoff, as defined in 29 U.S.C. 2101, the employee shall be eligible only for services, as appropriate, under the Job Training Partnership Act.
  - (3) Seller shall include the notification requirement in subparagraph (1), above, in all subcontracts of \$100,000 or more.
- (k) Effect of Termination on Patent Rights and Data and Software Rights

In the event of a termination of this contract, it is agreed that disposition of intellectual property developed under this contract shall be in accordance with provisions set forth in the Patent Rights and Data and Software Rights provisions of this contract. Buyer and Seller will negotiate in good faith a reasonable and timely adjustment of all outstanding issues between the Parties as a result of termination.
- (l) Protection and Disclosure of Information – Public Release
  - (1) Except for FCS Program information previously approved for public release by the Government, Seller shall not publicly release any information outside of Seller and its subcontractors, to include associate contractors, at any tier, regarding the work performed under this contract without first obtaining approval for Public Release as identified in the DD254. All such requests will first go to the Grants Officer who, after appropriate review, will make a determination of the suitability to disseminate program information publicly. Subcontractors and associate contractors shall submit such requests through Buyer.
  - (2) Seller will use computer and communications equipment that meets the requirements identified in the DD254 or Program Security Guide.
  - (3) Seller shall include this clause, including this subparagraph (3), in all subcontracts.
- (m) Non-Disclosure of Sensitive Government Program Information
  - (1) In the course of Agreement performance, the Government or Buyer may furnish Seller

information (written, verbal or otherwise) developed outside of the FCS program, regarding Army programs and initiatives that is often sensitive to past, present, and future procurements within the Government (hereafter "Sensitive Government Program Information"). If the Government or Buyer initially makes a disclosure of Sensitive Government Program Information to Seller in non-written form, e.g., verbally, the information disclosed shall be identified as being Sensitive Government Program Information and confirmed as such, in writing by the Government or Buyer within 30 days from such disclosure. Subject to the foregoing, Sensitive Government Program Information will be marked as such before it is provided to Seller. Seller agrees to use reasonable efforts not to use or reproduce Sensitive Government Program Information for any purpose other than fulfilling work under the FCS Program (the "Purpose"), and to keep Sensitive Government Program Information in confidence, disclosing it only for the Purpose to (i) Seller's employees assigned to or supporting the FCS Program, (ii) the Government and its FCS Program support contractors, and (iii) other companies, organizations, or individuals that have agreed contractually to control Sensitive Government Program Information under the same conditions set forth herein. The obligations set forth above shall not apply: to information which is or becomes publicly available, or to information which is already in the possession of the recipient without restrictions, or to the extent prior written authorization of the Government is given, or after three years after receipt of the information. This provision does not supercede the terms and conditions of the Data and Software Rights article of this contract.

- (2) Seller may disclose such Sensitive Government Program Information to subcontractors, regardless of tier, on the FCS program, provided that it includes this article in each such subcontract.
- (n) Ordering From Government Supply Sources
- (1) Seller is authorized to use Government Federal Supply Schedule Contracts in the performance of this contract.
  - (2) This authorization is issued in accordance with the provisions of FAR 51.1, Contractor Use of Government Supply Sources, and can be used only to acquire goods and services required specifically for performance under this contract.
  - (3) Buyer will provide Seller a copy of the authorization letter upon request.
  - (4) For each order placed to a Federal Supply Schedule vendor (i) a copy of the authorization letter must accompany the order, unless a copy was previously furnished to the vendor, and (ii) the following statement must appear on the order:

"This order is placed under written authorization from the U.S. Army Tank-Automotive and Armaments Command (TACOM) dated [May 30, 2003]. In the event of any inconsistency between the terms and conditions of this order and those of your Federal Supply Schedule Contract, the latter will govern."

- (o) Management of the FCS Program

Seller is aware that Buyer, as the Lead Systems Integrator of the FCS Program, intends to use a team approach to management of various aspects of this contract. The management team will be comprised of employees of Buyer, as well as Government and associate contract representatives. Seller agrees that it will accept representatives of the Government and associate contractors at meetings, program reviews, test viewings, etc, as though they were employees of Buyer. In order to make the most efficient use of the management-team members, representatives of the Government and/or associate contractors may attend meetings, program reviews, test viewings, etc, without an employee of Buyer being in attendance. Notwithstanding this team approach to management of various aspects of this contract, Seller is aware and agrees that representatives of the Government and associate contractors have no authority to direct the efforts of Seller.

(p) Proprietary Components

- (1) Proprietary components are not permitted on the FCS Program unless explicitly approved by the Government. Therefore, Seller shall not introduce the use of proprietary components under this contract unless the Government has previously approved such use. Government approval will be obtained through Buyer.
- (2) Seller shall include this clause, including this subparagraph (2), in all subcontracts.
