	Review for Table Completeness								
х	Element								
	PDF signed copy								
	Excel copy – editable								
	6 tables – Exhibit A (Tech Manuals) Commercial/Noncommercial, Exhibit B (TDP) Commercial/Noncommercial, Exhibit C (Other Data) Commercial/Noncommercial								
	If there is no assertion to make on an individual table, the box in cell D35 must have "X" $$								
	Fill out every column (A-J) for each assertion								
	Phone number must be included in Column H								
	Footnotes cannot be placed outside of the table – supplier tables will be incorporated into the master that will be part of the contract								

Process for making updates -

Updates may be made to the tables and must be approved by the USG customer after contract award. Supplier additions, deletions, or changes to their assertion tables due to new information need to be marked in RED font. The numbering should remain consistant from initial submittal and deleted assertions marked "RESERVED".

Please note that Boeing will be mirroring the edits on an existing document, changes not clearly identified will not be incorporated into the prime contract.

The rationale for incorporating the changes needs to be sent to Boeing in the submission email, example: Additional assertions as the result of new information after placing a supplier on contract.

*Additions due to inadvertant omissions will be coordinated with the customer and may or may not be accepted.

Review for Compliance								
х	Element	Notes						
Techni	ical Data or Computer SW (Column B)	1						
	This should indicate what technical data or computer software is being delivered in performance of the contract	A part number is not technical data or computer software. If asserting to drawings of a part, that should be stated, (i.e. "Drawings of XXX")						
	o Exhibit Mapping (Column D) - not all suppliers will have emonstrates which Exhibit the SDRLs should be mapped t							
	Exhibit A SDRLS – L-101A, L-101B, L-101C, L101D, L- 114, L-116, L-56 Exhibit B SDRLS – A-88, A-88A, A-88B Exhibit C SDRLS – all else	If technical data or software will be delivered under multiple SDRLs, it is acceptable to have multiple SDRLs on a single row, however if those SDRLs map to different exhibits — the assertion should be duplicated on each applicable Exhibit with the appropriate SDRL(s)						
Basis f	or Assertion (Column F)							
	Possible Basis for Assertions: Developed Exclusively at Private Expense Developed Partially at Private Expense	Other entries in this field may result in additional discussions/questions with Boeing or the customer						
Assert	ed Rights Category (Column G)	-						
	Possible Asserted Rights Categories: Limited Rights (Technical Data only), Restricted Rights (Software only), Specially Negotiated License Rights, Government Purpose Rights, Unlimited Rights	Other entries in this field may result in additional discussions/questions with Boeing or the customer. The Asserted Rights category must correlate with the Basis for Assertion. Developed Exclusively at Private Expense is the only basis for Limited/Restricted or Specially Negotiated License Rights.						
Name	of Person and Phone # Asserting Restrictions (Column H)							
	The company that is asserting rights and a phone number	Boeing and most suppliers are electing to supply the phone number of a Contracts Representative for all assertions						
OMIT/	NON-OMIT (Column I)							
	Identify each assertion as OMIT or NON-OMIT	If technical data or computer software is marked "OMIT", rights are unlimited in accordance with DFARS 252.227-7013(b)(v)						
Suppo	rting Rationale (Column J)							
	Information that supports the Asserted Rights	Boeing and most suppliers are identifying the color of money of the private funding, i.e. IRAD, Capital, direct commercial sale contract						

Identification and Assertion of Restrictions on the Government's Use, Release, or Disclosure of Technical Data and Computer Software

The contractor asserts for itself, or the persons identified below, that the Government's rights to use, release, or disclose the following technical data should be restricted

BOEING PROPRIETARY - COMPETITION SENSITIVE

- * Provide a list of all the systems, component, and processes the assertion impacts or affects.
- ** Generally, the development of an item, component, or process at private expense, either exclusively or partially, is the only basis for asserting restrictions. For technical data, other than computer software documentation, development refers to development of the item, component, or process to which the data pertain. The Government's rights in computer software documentation generally may not be restricted. For computer software, development refers to the software. Indicate whether development was exclusively or partially at private expense. If development was not at private expense, or for computer software documentation, enter the specific reason for asserting that the Government's rights should be restricted.
- *** Enter asserted rights category (e.g., government purpose license rights from a prior contract, rights in SBIR data or software generated under another contract, limited or government purpose rights under this or a prior contract, restricted or government purpose rights in computer software, government purpose rights under this or a prior contract, or specially negotiated licenses).
- **** Corporation, or individual, as appropriate.

***** Must indicate OMIT or Non-OMIT
