The parties are also allowed to negotiate special license agreements, subject to certain limitations (e.g., see paragraph 2. below).
1. Identification and Assertion of Restrictions. If the Seller (including its subcontractors or suppliers at any tier) desires to provide the Government with less than Unlimited Rights in any technical data or computer software, that technical data and computer software must have been identified using the procedures and format required by special contract requirement H020 Identification and Assertion of Restrictions on Technical Data and Computer Software.  - A. Pursuant to the contract clauses governing rights in technical data and computer software, the Government is granted Unlimited Rights in all technical data (including computer software documentation) that is necessary for operation, maintenance, installation, or training. No specifically negotiated license shall contain any limitations or restrictions on the Government's ability to perform the tasks identified in paragraph b.1 above. If any specifically negotiated license contains any term or condition purporting to limit or restrict the Government's ability to perform the tasks identified in paragraph b.1 above, this clause shall take precedence and such term or condition in the specifically negotiated license shall have no force or effect.
 - B. If the Seller provides the Government with less than Unlimited Rights in such technical data or computer software related to items developed exclusively or partially at private expense, the Government shall have at least the following rights in all technical data and computer software necessary for depot level maintenance and training system activities:

 - (iv) Unless authorized in writing by the party asserting restrictions on such technical data or computer software, the Government and its contractors (i.e., as recipients under paragraph (iii) above) may not use such technical data or computer software to manufacture additional quantities of any item or for any commercial purpose.

All contractors or other persons receiving technical data or computer software as authorized by paragraph B above shall be subject to a legal prohibition (e.g., nondisclosure agreement) against using such technical data and computer software for any purpose other than supporting the Government's activities described in paragraph b.1 above, as appropriate and authorized, for the F-15SA weapon system and equipment.
 - d. Technical Data and Computer Software of Subcontractors and Suppliers. Seller shall include these requirements in its subcontracts or other contractual or legal instruments with all its subcontractors or suppliers whose data deliverables are affected by this clause. To the extent Seller or its subcontractors intend to deliver any technical data or computer software with less than unlimited rights, Seller shall provide in its proposal a Data Assertions Table in compliance with this clause and the clause set forth herein entitled "Identification and Assertion of Restrictions on Technical Data and Computer Software." Seller shall propose license terms in the Data Assertions Table, for any technical data or computer software for which Seller proposes specially negotiated license terms. (Copies of the Data Assertions Table are available in the Description column for FA8634-12-R-2651 in the index for Customer Contract Requirements.)
 - e. Validation of Asserted Restrictions and Restrictive Markings. Nothing in this special contract requirement limits or otherwise affects the parties' rights or obligations specified in DFARS 252.227-7019 or DFARS 252.227-7037.

H002 Modification of Data Requirements (MAY 2011).

During the performance of this contract, Buyer's customer may, through Buyer, require minor changes to the SDRLs that are expected to have no impact on the established contract prices and value. These changes include such things as change in place of delivery and other administrative and clarification changes to the SDRLs. Seller will be informed of these changes by issuance of a purchase contract change (PCC) that will reference this clause as its authority. Within 10 days of receipt of the PCC, Seller will notify the Buyer's Authorized Procurement Representative in writing either -

- (1) that it shall proceed with the changes at no change in the price(s) of the contract, or
- (2) that there is an impact on the contract price(s). For those changes described under this paragraph, Seller shall, at Buyer's direction, submit a contract change proposal and shall not proceed with any of the changes described in the PCC until authorization from Buyer's Authorized Procurement Representative. For those changes described in paragraph (1) above, Seller shall proceed with the change(s) described in, and under the authority of, the PCC. Once a year, the SDRL changes that have been directed in this manner and are accomplished at no change in contract price(s), will be formally incorporated into a no change in price, unilateral contract modification.

H020 Identification and Assertion of Restrictions on Technical Data and Computer Software (MAY 2011).

- (a) Definitions. Terms used in this special contract requirement (SCR) that are defined in the following clauses and SCR have the same meaning as set forth in those clauses and SCR:
 - (1) DFARS 252.227-7013;
 - (2) DFARS 252.227-7014;
 - (3) DFARS 252.227-7015;
 - (4) DFARS 252.227-7017; or
 - (5) H001, Delivery and License Rights for Technical Data and Computer Software (FEB 2012).
- (b) Identification and Assertion of Restrictions. Seller shall not deliver under this contract any technical data or computer software with restrictive markings (or otherwise subject to restrictions on access, use, modification, reproduction, release, performance, display, or disclosure) unless the technical data or computer software has been identified in accordance with the following requirements:
 - (1) In the Data Assertions Table in the contract, Seller (including its subcontractors or suppliers, or potential subcontractors or suppliers, at any tier) identified all technical data and computer software that it proposed to be delivered with less than Unlimited Rights as follows:
 - (i) Noncommercial Technologies. Noncommercial technical data and noncommercial computer software was identified pursuant to DFARS 252.227-7017.
 - (ii) Commercial Technologies. Seller also identified and asserted any restrictions for all commercial computer software and commercial technical data (i.e., technical data pertaining to a commercial item) by providing the same types of information, using a similar format, and following the same procedures and requirements as specified at DFARS 252.227-7017.
 - (iii) The requirement to submit, complete, and sign the identification and assertions required by paragraphs (b)(1)(i) or (b)(1)(ii) of this clause was considered a material element of the final negotiated agreement (including, but not limited to, the final agreed to terms and conditions and contract price) and failure to meet this requirement could have rendered the offer ineligible for award.
 - (2) Post-Award Updates to the Pre-Award Identification and Assertions. Except as provided in this paragraph, Seller (including its subcontractors or suppliers at any tier) shall not supplement or revise the pre-award Data Assertions Table after contract award.
 - (i) Noncommercial Technologies. Post-award identification and assertion of restrictions on noncommercial technical data and noncommercial computer software are governed by paragraph (e) of DFARS 252.227-7013 and DFARS 252.227-7014, respectively. The term "source selection decision" in paragraph (e) of DFARS 252.227-7013 and DFARS 252.227-7014 includes Buyer's decision to award this contract based upon the final negotiated agreement (including, but not limited to, the final agreed to terms and conditions and contract price).
 - (ii) Commercial Technologies. Seller may supplement or revise its pre-award identification and assertion of restrictions on commercial computer software and commercial technical data only if such an expansion or revision would be permitted for noncommercial computer software or noncommercial technical data pursuant to paragraph (b)(2)(i) of this clause (i.e., based on new information, or inadvertent omissions that would not have materially affected the final negotiated agreement [including, but not limited to, the final agreed to terms and conditions and contract

- price]).
- (iii) Upon request by Buyer, Seller shall provide sufficient information to enable Buyer's customer to evaluate any listed assertions.
- (c) Specific Identification of Technical Data and Computer Software. When identifying and asserting restrictions on technical data and computer software pursuant to paragraph (b) of this clause, Seller shall--
- (1) Ensure that the technical data and computer software are identified by specific reference to the requirement to deliver or provide that technical data or computer software in the contract, for example, by referencing the associated CLINs, SDRLs, or paragraphs in the statement of work. Regarding any computer software that is rehosted, modified, or developed exclusively or partially at Government expense, the asserted restrictions on the associated data license rights shall specifically address source code, object code, executable code, documentation, software support tools, S/SEE (software/systems engineering environment) documentation, Systems/ Software Requirement Documents, Interface Control Documents, etc., in accordance with Clause H001 of this contract.
- (2) Include the relevant information for all technical data and computer software that are or may be required to be delivered or otherwise provided under the contract -- including all Option CLINs or other optional or contingent delivery requirements (i.e., presuming that Buyer will exercise the option to require delivery), online or remote access to information, and firmware or other computer software to be embedded in hardware deliverables.(d) Copies of Negotiated, Commercial, and Other Non-Standard Licenses. Seller shall provide copies of all proposed specially negotiated licenses(s), commercial license(s), and any other asserted restrictions other than Government purpose rights; limited rights; restricted rights; SBIR data rights for which the protection period has not expired; or Government's minimum rights as specified in the clause at 252.227-7015.
