J. CORRECTION OF SUPPLIES ACCEPTED WITH DEFICIENCIES

The Contracting Officer may opt to accept supplies which are not fully compliant with the contract (which includes but is not limited to deviations, waivers, shortages, or unincorporated Engineering Change Proposals (ECP)) or for which full compliance has not been determined by the successful completion of all required tests or inspections. In this case, the Contractor shall deliver said supplies at the direction of the Contracting Officer in accordance with the following:

(a) The Contractor shall correct such deviations, waivers, shortages, or un-incorporated ECPs as are listed in the Contracting Officer's notification or if contract compliance has not been established before delivery, correct any deficiencies revealed by the later completion of the required tests or inspections.

(b) If at the time of delivery the method of correction has not been determined, the Contractor shall determine the required corrective action and submit to the Government for approval. Upon approval, the Contractor shall proceed to comply therewith. If the Contracting Officer determines that the items shall not be returned to the Contractor's plant but that corrections shall be accomplished at a Government facility, the Contracting Officer may elect to have Government personnel in lieu of Contractor personnel make the corrections using Contractor-furnished materials (kits and/or raw material). In this event, an equitable adjustment in the contract price for the work not accomplished shall be negotiated.

(c) If deliveries are made before completion of all tests or inspections, the Contractor shall notify the Contracting Officer, in writing, upon completion of the tests or inspections of changes required to the delivered items and propose method(s), date(s) and location(s) for accomplishing all rework and/or parts replacement.

(d) An amount determined appropriate by the Contracting Officer shall be withheld pending completion of all required actions. In determining this amount the Contracting Officer shall consider, as appropriate:

(1) The cost to the Contractor to correct the noted deficiencies and to satisfactorily complete testing;

(2) Any loss of value to the Government due to reduced item reliability, increased life cycle cost, or reduced availability;

(3) Consideration for extending delivery schedules; and

(4) Any other factors which may impact Government use or cost of ownership of the affected items.

(e) A revised contract delivery schedule shall be established in those instances where return of reworked items to the Government is required. Additional transportation costs resulting from reworking items shall be borne by the Contractor unless the contract provides otherwise.

K. COMMERCIAL BILL OF LADING SHIPMENTS - CARRIER'S RATES

The Contractor shall ensure that proposed carrier's rates are equal to or better than rates available to the Government. Contact the transportation officer for this contract, as identified by the Administrative Contracting Officer, for confirmation that the proposed carrier's rates are no higher than those otherwise available to the Government. List the shipping costs on the invoice to the Government and attach a copy of the carrier's billing. Failure to properly annotate the invoice and provide a copy of the carrier's billing may result in those costs not being reimbursed or only partially reimbursed.
