(2) Management procedures that provide for generation of timely, reliable, and verifiable information for the Contract Performance Report (CPR) and the Integrated Master Schedule (IMS) required by the CPR and IMS data items of this contract.

(b) If this contract has a value of \$50,000,000 or more, the Contractor shall use an EVMS that has been determined by the Cognizant Federal Agency (CFA) to be in compliance with the EVMS guidelines as stated in paragraph (a)(1) of this clause. If, at the time of award, the Contractor's EVMS has not been determined by the CFA to be in compliance with the EVMS guidelines as stated in paragraph (a)(1) of this clause, the Contractor shall apply its current system to the contract and shall take necessary actions to meet the milestones in the Contractor's EVMS plan.

(c) If this contract has a value of less than \$50,000,000, the Government will not make a formal determination that the Contractor's EVMS complies with the EVMS guidelines in ANSI/EIA-748 with respect to the contract. The use of the Contractor's EVMS for this contract does not imply a Government determination of the Contractor's compliance with the EVMS guidelines in ANSI/EIA-748 for application to future contracts. The Government will allow the use of a Contractor's EVMS that has been formally reviewed and determined by the CFA to be in compliance with the EVMS guidelines in ANSI/EIA-748.

(d) The Contractor shall submit notification of any proposed substantive changes to the EVMS procedures and the impact of those changes to the CFA. If this contract has a value of \$50,000,000 or more, unless a waiver is granted by the CFA, any EVMS changes proposed by the Contractor require approval of the CFA prior to implementation. The CFA will advise the Contractor of the acceptability of such changes as soon as practicable (generally within 30 calendar days) after receipt of the Contractor's notice of proposed changes. If the CFA waives the advance approval requirements, the Contractor shall disclose EVMS changes to the CFA at least 14 calendar days prior to the effective date of implementation.

(e) The Government will schedule integrated baseline reviews as early as practicable, and the review process will be conducted not later than 180 calendar days after (1) contract award, (2) the

exercise of significant contract options, and (3) the incorporation of major modifications. During such reviews, the Government and the Contractor will jointly assess the Contractor's baseline to be used for performance measurement to ensure complete coverage of the statement of work, logical scheduling of the work activities, adequate resourcing, and identification of inherent risks.

(f) The Contractor shall provide access to all pertinent records and data requested by the Contracting Officer or duly authorized representative as necessary to permit Government surveillance to ensure that the EVMS complies, and continues to comply, with the performance criteria referenced in paragraph (a) of this clause.

(g) When indicated by contract performance, the Contractor shall submit a request for approval to initiate an over-target baseline or over-target schedule to the Contracting Officer. The request shall include a top-level projection of cost and/or schedule growth, a determination of whether or not performance variances will be retained, and a schedule of implementation for the rebaselining. The Government will acknowledge receipt of the request in a timely manner (generally within 30 calendar days).

(h) The Contractor shall require its subcontractors to comply with EVMS requirements as follows:

(1) For subcontracts valued at \$50,000,000 or more, the following subcontractors shall comply with the requirements of this clause: TBD

(2) For subcontracts valued at less than \$50,000,000, the following subcontractors shall comply with the requirements of this clause, excluding the requirements of paragraph (b) of this clause: TBD

**MISSILE DEFENSE AGENCY ENABLING CLAUSE FOR BMD INTERFACE SUPPORT .**

a. It is anticipated that, during the performance of this contract, the Contractor will be required to support Technical Interface/Integration Meetings (TIMS) with other Ballistic Missile Defense (BMD) Contractors and other Government agencies. Appropriate organizational conflicts of interest clauses and additional costs, if any, will be negotiated as needed to protect the rights of the Contractor and those of Boeing and the Government.

b. Interface support deals with activities associated with integration of the requirements of this contract into BMD system plans and support of key Missile Defense Agency (MDA) program reviews.

c. The Contractor agrees to cooperate with BMD Contractors by providing access to technical matters; provided, however, the Contractor will not be required to provide proprietary information to non-Government entities or personnel in the absence of a non-disclosure agreement between the Contractor and such entities.

d. The Contractor further agrees to include a clause in each subcontract requiring compliance with paragraph c. above, subject to coordination with the Contractor. This agreement does not relieve the Contractor of its responsibility to manage its subcontracts effectively, nor is it intended to establish privity of contract between the Government and such subcontractors.

e. Personnel from BMD Contractors or other Government agencies or Contractors are not authorized to direct the Contractor in any manner.

f. This clause shall not prejudice the Contractor or its subcontractors from negotiating separate organizational conflict of interest agreements with BMD Contractors; however, these agreements shall not restrict any of the Government's rights established pursuant to this clause or any other contract.

**MISSILE DEFENSE AGENCY ORGANIZATIONAL CONFLICT OF INTEREST (JAN 2010).**  
**ORGANIZATIONAL CONFLICT OF INTEREST**

a. It is recognized by the parties hereto that the effort to be performed by the contractor under this contract includes a myriad of systems engineering efforts; support to the Government in the preparation of specifications and work statements; technical evaluation of other contractors products and services; and access to other contractors' proprietary information. Consequently, performance of this contract creates potential organizational conflicts of interest as contemplated by Federal Acquisition Regulation (FAR) 9.505. It is the intention of the parties that the contractor will not engage in any other contractual or other activities which could create an organizational conflict of interest with its position under this contract; which might impair its ability to render unbiased advice and recommendations; or in which it may derive an unfair competitive advantage as a result of knowledge, information, and experience gained during the performance of this contract.

b. The contractor agrees that it will seek the prior written approval of both the GMD Development and Sustainment Contract (DSC) Contracting Officer and the Boeing Company on the other acquisition before participating in any Missile Defense Agency (MDA) contract as a contractor, subcontractor, co-sponsor, joint venturer, consultant, or in any similar capacity, to provide material, equipment or services. The contractor will be subject to this restriction, except as a source for any competitive follow-on acquisitions for the GMD DSC, other GMDJPO follow-on requirements, or on a noncompetitive basis under other prime contracts with the Government. The GMD DSC Contracting Officer and Boeing will consider the requests for written approval on a case-by-case basis.

c. The effort to be performed under this contract includes providing systems engineering; input to preparation of specifications and scopes of work; assistance to the Government during technical evaluations of other contractors' products; and access to third-party proprietary information. Such activities create a significant potential for certain conflicts of interest, as set forth in FAR 9.505. It is the intention of the parties hereto to prevent both the potential for bias in connection with the contractor's performance of this contract, as well as the creation of any unfair competitive advantage as a result of knowledge gained through access to third-party proprietary information.

d. The term "proprietary information" for purposes of this clause is any information considered so valuable by its owners that it is held secret by them and their licensees. Information furnished voluntarily by the owner without limitations on its use, or which is available without restrictions from other sources, is not considered proprietary.

e. The Contractor agrees that, to the extent it receives or is given access to proprietary data, trade secrets, or other confidential or privileged technical, business, or financial information (hereinafter referred to as "proprietary data") under this contract, it shall treat such information in accordance with any restrictions imposed on such information. Further, the contractor shall (i) enter into a written agreement with the other entities involved in order to protect such proprietary information from unauthorized use or disclosure for as long as it remains proprietary; and (ii) refrain from using such proprietary information other than as agreed to, for example to provide assistance during technical evaluation of other contractors' offers or products under this contract. An executed copy of all proprietary information agreements by individual personnel or on a corporate basis shall be furnished to the Boeing Company within fifteen (15) calendar days of execution.

f. In addition, the Contractor shall obtain from each employee who has access to proprietary data under this contract, a written agreement which shall mandate that such employee shall not, during his/her employment by the Contractor or thereafter, disclose to others or use for their own or others benefit, proprietary data received in connection with the work under this contract.

g. If the Contractor, in the performance of this contract, obtains access to Government or Boeing proprietary information such as plans, policies, reports, studies, financial plans, or data which has not been released or otherwise made available to the public, the Contractor agrees that without prior written approval of the GMD DSC Contracting Officer obtained through Boeing, it shall not: (a) use such information for any private purpose unless the information has been released or otherwise made available to the public, (b) compete for work based on such information after the

completion of this contract, or until such information is released or otherwise made available to the public, whichever occurs first, (c) submit an unsolicited proposal to the Government which is based on such information until after such information is released or otherwise made available to the public, or (d) release such information unless such information has previously been released or otherwise made available to the public by the Government or Boeing.

h. The Contractor shall be restricted from performing validation, verification, accreditation, or certification of any products developed or delivered under this contract. Additionally, the Contractor shall not serve as a software independent validation and verification (IV&V) contractor for any software developed or delivered under this contract.

i. The contractor shall educate its employees through appropriate means (such as formal training and promulgation of company policies and procedures) the principles of FAR Subpart 9.5. Such inculcation shall include, but not be limited to, training to ensure that employees refrain from using or disclosing proprietary information except as provided by executed agreement or as allowed by the contract. Further, the contractor shall obtain from each of its employees, whose anticipated responsibility in connection with the work under this contract may be reasonably expected to involve access to such proprietary information, a written agreement, which, in substance, shall provide that such employee will not, during its employment by the contractor, or thereafter, improperly disclose such data or information.

j. The contractor shall hold the government and Boeing harmless and will freely indemnify the government and Boeing as to any cost/loss resulting from the unauthorized use or disclosure of any third-party proprietary information by its employees, the employees of subcontractors, or by its agents.

k. If in compliance with this clause, the Contractor discovers and promptly reports an organizational conflict of interest (or the potential thereof) subsequent to contract award, a prompt and full disclosure shall be made in writing to the Contracting Officer through Boeing. This disclosure shall be made on the OCI Analysis/Disclosure Form, and shall include a description of the action the Contractor has taken or proposes to take in order to avoid or mitigate such conflicts. If it is deemed to be in the best interest of the Government, Boeing may terminate this Contract for convenience.

l. The contractor will include the same provisions as are expressed in this clause, including this paragraph, in all subcontracts awarded for performance of any portion of this requirement. This restriction is applicable throughout the period of performance of the subcontract, and any extensions thereof by change order or supplemental agreement, and for one (1) year thereafter. When the provisions of this clause are included in a subcontract, the term "GMD DSC Procuring Contracting Officer" shall represent the head of the Contracts Office of the Boeing Company. Any deviations or less restrictive coverage deemed necessary or required by the prime contractor for a particular subcontract must first be submitted to the Government GMD DSC Procuring Contracting Officer for approval. Subcontractors, on a case-by-case basis, may make a request, through the prime contractor, for a revision to the OCI Clause restrictions outlined above.

m. This provision shall have effect throughout the period of performance of this contract, any extensions thereto by change order or supplemental agreement, and for one (1) year thereafter. Participation in any acquisition described above, without express written approval from the GMD DSC Procuring Contracting Officer obtained through Boeing, may be grounds for termination of this contract. For breach of any of the above restrictions or for nondisclosure or misrepresentation of any relevant facts required to be disclosed concerning this contract, the government reserves the right to terminate this contract for default, disqualify the contractor for subsequent related contractual efforts, and to pursue such other remedies as may be available under law.
