- (2) The Missile Defense Agency's OCI policy is in Section J, Attachment 19 titled MDA Organizational Conflicts of Interest Policy Memorandum No. 51, dated Jul 27, 2009 of this contract.

c. Access to and Use of Government Information: If the Seller, in performance of this contract, obtains access to Government information, or other program related information, such as plans, policies, reports, studies, financial plans, or data which has not been released or otherwise made available to the public, the Seller agrees that without prior written approval of Buyer, it shall not:

- (1) use such information for any private purpose;
- (2) compete for work based on such information until one year after such information is released or otherwise made available to the public;
- (3) submit an unsolicited proposal to the Government based on such information;

e. Subcontracts: The Seller shall include this clause in consulting agreements, teaming agreements, subcontracts, or other arrangements for provision of services or supplies of any tier. The terms "contract", "Contractor", and "Contracting Officer" shall be appropriately modified to preserve the Government's rights.

f. Representations and Disclosures:

- (1) The Seller represents that it has disclosed to Buyer, prior to award, all facts relevant to the existence or potential existence of organizational conflicts of interest as that term is used in FAR Subpart 9.5. To facilitate disclosure and Buyer approval, the Seller shall complete an OCI Analysis/Disclosure Form for each MDA, Ballistic Missile Defense (BMD), and BMD-related contract or subcontract (form shall be requested from Buyer).
- (2) The Seller represents that if it discovers an organizational conflict of interest or potential conflict of interest after award, a prompt and full disclosure shall be made in writing to Buyer. If, however, in compliance with this clause, the Seller discovers and promptly reports an organizational conflict of interest (or the potential thereof) subsequent to contract award, Buyer may terminate this contract for convenience if such termination is deemed to be in the best interest of Buyer or take other appropriate actions.
- (2) The parties recognize that this clause has potential effects which will survive the performance of this contract and that it is impossible to foresee each circumstance to which it might be applied in the future. Accordingly, Seller may at any time seek a waiver from Buyer by submitting a full written description of the requested waiver and the reasons in support thereof.

h. Government Indemnity: The Seller shall hold Buyer and the Government harmless and indemnify Buyer and the Government as to

- b. Interface support deals with activities associated with integration of the requirements of this contract into BMD system plans and support of key Missile Defense Agency (MDA) program reviews.
- c. The Seller agrees to cooperate with BMD Contractors by providing access to BMDS technical matters; provided, however, the Seller will not be required to provide Freedom of Information Act protected information to non-Government entities or personnel in the absence of a non-disclosure agreement between the Seller and such entities.
- d. Seller further agrees to include a clause in each subcontract requiring compliance with paragraph c. above, subject to coordination with Seller. This agreement does not relieve the Seller of its responsibility to manage its subcontracts effectively.
- e. Personnel from Sellers or other Government agencies are not authorized to direct the Seller in any manner.
- f. This clause shall not prejudice the Seller or its subcontractors from negotiating separate organizational conflict of interest agreements with BMD Contractors; however, these agreements shall not restrict any of the Government's rights established pursuant to this clause or any other contract.

e. Seller and subcontractors are authorized to use technical documents generated or held under this contract for purposes of this contract or any other MDA contract, solicitation or program and to flow such technical documents to each other, DOD officials and other DOD contractors having a "need to know" in connection with this contract or any other MDA contract, solicitation or program. H-DSC-12 CONTRACTOR IDENTIFICATION AND ASSERTION OF RESTRICTIONS ON THE GOVERNMENT'S USE, RELEASE, OR DISCLOSURE OF NON-COMMERCIAL TECHNICAL DATA OR COMPUTER SOFTWARE

The Seller and its subcontractors shall provide a completed Attachment in accordance with DFARS 252.227- 7017 entitled "Identification and Assertion of Restrictions on the Government's Use, Release, or Disclosure of Technical Data or Computer Software" that is signed and dated by a responsible official of the Contractor. The Attachment(s) (Attachment 24 –Contractor Assertion of Rights In Technical Data-Noncommercial Items and Attachment 25 – Contractor Assertion of Rights in Noncommercial Computer Software and Noncommercial Software Documentation) are incorporated herein by reference as if fully set forth. The Attachment(s) identifies and provides information pertaining to technical data (including computer software documentation) and computer software that the contractor and subcontractors claim to qualify for delivery with less than Unlimited Rights. The contractor agrees not to withhold delivery of the technical data or software based on its claims. The Government shall investigate the validity of the contractor's claims and therefore reserves all its rights regarding the technical data/software in question, to include those rights set forth in: DFARS 252.227-7013 Rights in Technical Data - Noncommercial Items (Nov 1995); DFARS 252.227-7014 Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation (Jun 1995); DFARS 252.227-7019 Validation of Asserted Restrictions--Computer Software (Jun 1995); DFARS 252.227-7028 Technical Data or Computer Software Previously Delivered To the Government (Jun 1995); and, DFAR 252.227-7037 Validation Of Restrictive Markings On Technical Data (SEP 1999) clauses until a determination is made. a. To maintain the security of the MDA spaces and information systems, the Seller shall notify Buyer in writing whenever a Seller or subcontractor employee included on the current Visit Authorization Request/Letter no longer supports this contract. This requirement shall apply to both Seller and employee initiated termination of services and to temporary suspension of services.

b. The Seller will cooperate with Buyer in taking the following actions (facilitating the employee's return of all badges, keycards, and passes). Specifically, upon notification, Buyer will work with the Technical Area Security Officer (TASO)/Office Security Manager (OSM) to ensure timely action to:

a. DoD 5200.2-R, DoD Personnel Security Program, requires Seller personnel, who perform work on sensitive Information Technology (IT)/Automated Data Processing (ADP) systems (hereafter referred to as IT), to be assigned to positions which are designated at one of three sensitivity levels (IT-I, IT-II or IT-III). These designations equate to Critical Sensitive, Non-Critical Sensitive, and Non-Sensitive. Working on-site in any Buyer Facility requires a minimum Sensitivity of IT-II. The following investigations are required: IT-I designated positions require a Single Scope Background Investigation (SSBI). IT-II designated positions require a National Agency Check with Law and Credit (NACLC).

IT-III positions associated with Buyer are found only at Seller's facilities. See below for requirement.

b. The required investigation will be completed prior to the assignment of individuals to sensitive duties associated with the position.

c. a. Unless otherwise approved by the PCO, commercial computer software licenses shall designate the U.S. Government as a contingent licensee, able to replace the Seller as the primary licensee upon notifying the licensor. A copy of the negotiated license shall be furnished to the PCO. Per DFARS 227.7202, the terms of the licenses cannot be inconsistent with Federal procurement law and must satisfy user needs. This includes the Seller's / subcontractor's needs for the software to perform this contract and the Government's needs for the software to accomplish the Government's ultimate objectives. At a minimum, this shall include the rights to make an archive copy of the software, to relocate the computer on which the software resides, to re-host the software on a different computer, to permit access by support contractors, and to permit the Government to transfer the license to another seller.

b. Nothing in this clause shall take precedence over any other clause or provision of this contract. Government concurrence, as defined in paragraph a above, does not in any way affect the Government's technical data rights as established by the terms and conditions of this contract.

H-34 AS IS GOVERNMENT FURNISHED DATA/DOCUMENTATION (Nov 2010)

All technical data (as defined in DFARS 252.227-7013 and DFARS 252.227-7014) furnished by the Government is in an "as is" condition without any warranty as to its accuracy, completeness, or adequacy. The Seller shall use this technical data at its own risk. The Government assumes no responsibility for such furnished data/documentation nor will the Government have any liability for equitable adjustments to the terms and conditions of this contract should such data/documentation prove to be inaccurate, incomplete, or otherwise defective.

H-35 INCORPORATING COMMERCIAL AND OPEN SOURCE SOFTWARE (Nov 2010)

- a. DFARS 252.227-7014(d) requires the written approval of the PCO before the Seller may incorporate any copyrighted computer software in the software to be delivered under this contract.
- b. A request for approval to incorporate Commercial Computer Software should be accompanied by a license that conforms with the requirements of the Commercial Computer Software Licenses clause of this contract.
- c. A request for approval to incorporate Open Source Software must be accompanied by the applicable license, a detailed description of the source of the software and how it has been or will be used, and a legal analysis of the restrictions imposed and potential risks and liabilities.
- d. Nothing in this clause shall take precedence over any other clause or provision of this contract. Government concurrence, as defined in paragraph a above, does not in any way affect the Government's technical data rights as established by the terms and conditions of this contract.

H-DSC-05 FEE

Seller shall implement the following elements of cost and fee for use in the preparation of proposals and to support negotiations.

- a. No Fee on Other Direct Cost (ODCs). ODCs are costs (other than labor and materials) directly associated with the final cost objective. With the exception of nominal material handling, the Contractor is not entitled to fee on any ODCs. Examples of ODC include, but are not limited to: travel, consumables, renewable licenses, leases, consultants, special tooling, and royalties. This limitation shall flow down to all tiers of subcontractors. Not applicable to fixed price subcontract arrangements.
- b. No Fee on Fee. Seller is not entitled to fee on subcontractor fee and/or profit (e.g. "fee on fee"). In calculating total fee, Seller shall exclude all proposed subcontractor fee/profit from its total cost pool. This limitation shall flow down to all tiers of subcontractors. Not applicable to fixed price arrangements.

A final physical inventory of Property shall be performed upon termination or six (6) months prior to contract completion. Seller shall request disposition instructions for excess property.

H-DSC-03 INDEMNIFICATION AGAINST UNUSUALLY HAZARDOUS RISKS

The legal authorities to indemnify Sellers for unusually hazardous risks are 10 USC 2354 (for research, development and testing activities) and 50 USC 1431 (Public Law 85-804), as implemented in Executive Order 10789. Previous indemnification from other contracts does not carry over to this resulting contract. Seller may request indemnification for effort under this contract at any time. Seller requests for indemnification must be prepared IAW the requirements of FAR 50.104-3. Buyer will fairly process request(s) in good faith to the applicable approving authority within the Department of Defense. However, Buyer will not, if indemnification is not granted through this process, make adjustments to the estimated cost or schedule of this contract.

H-DSC-07 RENT-FREE NON-INTERFERENCE USE OF GOVERNMENT PROPERTY

Seller may use on a rent-free, non-interference basis and in an "as is" condition as necessary for the performance of this contract, the Government property accountable under contracts HQ0006-01-C-0001, HQ0147-09-C-0007, and HQ0147-09-C-0008. Seller is responsible for scheduling the use of all property covered by the referenced contract and providing timely written notification to Buyer of any conflicts, delays, or disruptions to any work performed by the Seller due to use of any or all of such property under this contract or any other contracts under which use of such property is authorized. The Seller will not be relieved of its contractual responsibilities if for any reason Government Property is not available or is not functioning or suitable for the contractor's intended purpose.

H-DSC-09 INSERTION OF LIMITED OR RESTRICTED RIGHTS INTO THE GMD PROGRAM

Hardware items which are subject to Limited Rights in their associated technical data as defined in DFARS 252.227-7013 and software items which are subject to Restricted Rights as defined in DFARS 252.227-7014 shall not be incorporated into the design of the GMD weapon system or models/simulations thereof under this contract without the prior written authorization of the PCO. Seller's request shall include a rough order of magnitude (ROM) estimate to perform development if the data or software cannot be used as requested. If Bueyr does not provide a decision within 60 days of the request, the request is considered denied. In the event Buyer authorizes inclusion of the Limited Rights technical data and/or Restricted software, such data or software will be added as an Attachment. Using Government assets in an Independent Research and Development (IRAD) project may be authorized on a case by case basis. Seller's request shall include an offer of consideration for use of such Government assets. Buyer will evaluate the request, including the Seller's offer of consideration, and either approve, deny, or offer an alternative form of consideration. Any such consideration will be mutually agreed to by the parties prior to use of Government assets. Consideration should include, at a minimum, specially negotiated rights granting the Government a license for Government Purpose Rights IAW DFARS 252.227-7013 and 252.227-7014 in the subject IRAD project. When the Seller requests the use of Government assets for an IRAD project, the request shall include the purpose of the IRAD project and the potential benefit to the Government. The Seller will be required to execute a bailment agreement prior to the transfer or use of Government assets.

H-DSC-10 COST ESTIMATING METHODS

The following cost estimating methods shall be used as requested by the Government:

- a. Planning Estimate - The purpose of a planning estimate is to support Government planning. Planning estimates may only be requested by the Buyer. A planning estimate shall be provided in 1-2 calendar days. This estimate is very limited in scope, involves minimal pricing ground rules and assumptions from the Government, and is generally comprised of ranges/parametrics. Documentation provided shall be high level scope and funding estimates by Government fiscal year sent via email.
- b. Rough Order of Magnitude (ROM) - The purpose of a ROM estimate is to support Government budgetary decisions and potential authorization of unpriced actions in the event there is insufficient time for a Not-to-Exceed (NTE) estimate. ROM estimates may only be requested by Buyer. ROM estimates shall be provided to the Government within 5 calendar days. This non-binding estimate is limited in scope, involves limited analysis, and develops a high level baseline to include a high level SOW, schedule, and equipment lists. The ROM estimate is not generated based on formal Basis of Estimates (BOEs) and by design provides limited supporting rationale. Subcontractor input will be included if schedule allows. Documentation provided shall include scope and funding estimates by Government fiscal year in a briefing package submitted by contracts letter to the Government.
- c. Not-to-Exceed (NTE) - The purpose of an NTE estimate is to support critical Government budgetary decisions, and a binding basis on which to issue unpriced actions. NTEs may only be requested by Buyer. NTE estimates shall be provided to the Government within 10 calendar days or as designated by Buyer. This estimate involves more in depth analysis, develops a baseline to include a statement of work, schedule, and required equipment lists. The NTE estimate shall be based on Basis of Estimate (BOEs) and estimated materials (as required), including supporting rationale. Applicable subcontractor input shall be included as required. Documentation required shall include scope and funding estimates by Government fiscal year in a briefing package submitted by contracts letter to the Government. The Contractor's NTE must be valid for a minimum of one hundred eighty (180) calendar days.

H-DSC-11 IMPACT OF GOVERNMENT TEAM PARTICIPATION/ACCESS

Under the Government/Seller organizational/interface approach (e.g., Integrated Product Team (IPT), Team Execution Review (TER), Technical Interchange Meeting (TIM), and/or Working Groups), Government personnel will frequently interface with Seller/subcontractor team members during contract performance. For this purpose, the Seller authorizes the Government to communicate and, where appropriate, visit and monitor directly, and, in some instances, exclusively, with Seller and Seller's subcontractors. The Government shall endeavor to provide advance notice to the Seller. This access/interface is necessary to support the Government's quality management approach, which emphasizes systematic surveillance and evaluation techniques used to assess Seller/subcontractor performance stipulated in its Quality Assurance Surveillance Plan (QASP). Government team members may offer advice, information, support, clarification, and/or facilitate rapid Government feedback and approval of team-related products, as well as review Seller/subcontractor progress; however, the responsibility and accountability for successfully accomplishing the requirements of this contract remain solely with the Seller. Seller shall not construe such advice, information, surveillance observations, reviews and clarifications by the Government team members as Government-directed changes to the terms of this contract. The Boeing Procurement Agent is the

only individual who is authorized to direct or approve any change to the terms of this contract.

H-DSC-12 CONTRACTOR IDENTIFICATION AND ASSERTION OF RESTRICTIONS ON THE GOVERNMENT'S USE, RELEASE, OR DISCLOSURE OF NON-COMMERCIAL TECHNICAL DATA OR COMPUTER SOFTWARE

The Seller and its subcontractors shall provide a completed Attachment in accordance with DFARS 252.227-7017 entitled "Identification and Assertion of Restrictions on the Government's Use, Release, or Disclosure of Technical Data or Computer Software" that is signed and dated by a responsible official of the Contractor. The Attachment(s) (Attachment 24 –Contractor Assertion of Rights In Technical Data-Noncommercial Items and Attachment 25 – Contractor Assertion of Rights in Noncommercial Computer Software and Noncommercial Software Documentation) are incorporated herein by reference as if fully set forth. The Attachment(s) identifies and provides information pertaining to technical data (including computer software documentation) and computer software that the contractor and subcontractors claim to qualify for delivery with less than Unlimited Rights. The contractor agrees not to withhold delivery of the technical data or software based on its claims. The Government shall investigate the validity of the contractor's claims and therefore reserves all its rights regarding the technical data/software in question, to include those rights set forth in: DFARS 252.227-7013 Rights in Technical Data -Noncommercial Items (Nov 1995); DFARS 252.227-7014 Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation (Jun 1995); DFARS 252.227-7019 Validation of Asserted Restrictions--Computer Software (Jun 1995); DFARS 252.227-7028 Technical Data or Computer Software Previously Delivered To the Government (Jun 1995); and, DFAR 252.227-7037 Validation Of Restrictive Markings On Technical Data (SEP 1999) clauses until a determination is made. The Seller shall have, maintain, and follow written procedures sufficient to assure that restrictive markings/legends are used only when authorized by the terms of this contract and shall maintain records sufficient to justify the validity of any restrictive markings/legends on any technical data or computer software or computer software documentation delivered under this contract. Seller agrees that the Government has Unlimited Rights as defined by DFARS 252.227-7013 and 252.227-7014 in any deliverable technical data or computer software or computer software documentation not listed in the Attachment and that such data or software will not be subject to any restrictive markings or legends.

H-DSC-13 TEST SCHEDULE ADJUSTMENTS

Adjustments made to contract price due to a change in the ground and/or flight and/or other test schedule will be accomplished as set forth below:

A change to the test schedule means the movement of a test from one test window to the next. A test window is defined as a period of time 90 days before or after the test date as it appears in the Integrated Master Test Plan (IMTP) or a Target of Opportunity published schedule. The movement of a test within a test window will not be grounds for an adjustment to the contract price. Test schedule changes outside of the original test window caused by the Seller or the Government may result in a downward or upward adjustment to the contract price. A change that is beyond the control and without the fault or negligence of the either party will not result in an adjustment to the contract price.

H-DSC-14 PROPERTY NECESSARY TO PERFORM THE CONTRACT

(a) The contract costs reflect the Seller's provision of all property necessary to perform under a the contract. In the event that such Government property becomes available for use by the Seller to perform under the contract, cost will be subject to, at Buyer's discretion, a unilateral downward adjustment. Such an adjustment will be based on the proposed cost of the Seller provisioning the property less actual costs incurred as a direct charge to the Contract. An adjustment modification will be issued to reflect the Buyer's determination to adjust the contract cost.

(b) Seller disagreements with a determination made by Buyer pursuant to this clause shall be a dispute under the Disputes clause. However, nothing in this clause nor any Buyer determination made in conjunction with this clause shall excuse Seller from proceeding with its duties under the instant contract.

H-DSC-15 Seller Accountability for Quality

a) Definitions. As used in this clause—

"Command media," as used in this clause, includes the SubContractor's specifications, engineering drawings, test procedures, and other documentation generated to comply with Statement of Work (SOW) requirements ensuring repeatability in the products produced and services provided.

“ Nonconformance” as used in this clause means a condition of any hardware, software, material, or service/workmanship in which one or more characteristics do not conform to requirements.

"Quality escape," as used in this clause, means the SubContractor, or any of its subcontractors:

- (1) failed to detect a nonconformance or failed to follow command media; and
- (2) said nonconformance or failure to follow command media could adversely affect the performance of a component, subsystem or system; and
- (3) requires an action by the Seller to bring said item back to compliance with applicable specification requirements.

(b) The rights and remedies afforded Buyer and Seller under this clause are in addition to any other provision of this contract.

(c) Seller may make an equitable reduction in any item performance incentive fee previously paid under the contract, or payable in the current fiscal year, if at any time during the term of this contract, including pre-acceptance or post-acceptance of any item or service required to be delivered or performed under this contract, Buyer reasonably determines that:

- (1) a quality escape occurred; and
- (2) the quality escape was caused solely by Seller, or any of its subcontractors; and
- (3) resulted in substantial harm to Seller and/or the Government.

Buyer will notify the Seller within 30 days of determining a quality escape occurred for which an equitable reduction may result.

(d) Buyer will consider cost, schedule and performance impacts of the quality escape as well as any recovery and mitigation efforts by the Seller that are taken to reduce the impacts of the quality escape, in deciding whether to make such a reduction. Failure to agree to the reduction in performance incentive fee shall be a dispute under the Disputes Clause of the Contract.
