Seller will flow down the same goals to these large businesses, require these plans be updated by the Subcontractors as necessary to support changes that are incorporated, and will monitored performance to their plans by requiring them to report lower-tier Small Business subcontracting dollars using the Boeing Supplier Diversity template on a semi-annual basis.

The continuing failure to meet the requirement to provide cleared personnel is grounds for termination of the order, unless cleared personnel are timely provided as replacements. The Seller must provide a qualified replacement

capable of passing a BI for any person who fails to successfully pass a BI. This policy also applies to any personnel hired as replacements during the term of the order. The Contracting Officer must approve, through Boeing, all personnel replacements. Failure of a Seller to properly comply with these requirements shall be documented and considered when completing Contractor Performance Reports.

(6) General Security Responsibilities During Performance. The Seller shall ensure that its employees follow the general procedures governing physical, environmental, and information security described in the various CBP regulations pertaining thereto, good business practices, and the specifications, directives, and manuals for conducting work to generate the products as required by this order. Personnel will be responsible for the physical security of their area and government furnished equipment (GFE) issued to them under the provisions of the order.
