4. When requested by the Contracting Officer, the Seller shall provide sufficient information to enable the Contracting Officer to evaluate the Seller's assertions. The Contracting Officer reserves the right to add the Seller's assertions to the Attachment and validate any listed assertion, at a later date. The Contracting Officer reserves the right to add the Seller's assertions to the Attachment and validate any listed assertion, at a later date.

(d) It is strongly recommended that the Seller flow down the data rights provisions of this contract to lower tier subcontractors to ensure that it can fulfill its data rights obligations to the Government. See Clause FAR 52.227-14(h), *Rights in Data—General*. The Seller shall be held responsible to obtain rights for the Government where it fails to fulfill such obligations.

(e) Pursuant to Clause FAR 52.227-14(c)(2), the Seller must obtain Contracting Officer approval before incorporating any data not first produced under the Contract into data delivered under the contract. Before delivering such data, the Seller must identify it and grant the Government, or acquire on its behalf, the broad licenses required by subparagraph (c) of the *Rights in Data—General* clause.

(f) FAR Clause 52.227-17, Rights in Data – Special Works, applies to the following categories of Contract deliverables: software design documents including flowcharts, technical drawings, documentation, websites, and NASA presentations.

H.7 ARC 52.227-98 INFORMATION INCIDENTAL TO CONTRACT ADMINISTRATION (OCT 2004)

NASA shall have unlimited rights in information incidental to contract administration including administrative and management information created by Seller and specified for delivery to NASA in performance of the contract, expressly excluding financial information. Specifically, NASA shall have the right to release such administrative and management information to any third party to satisfy NASA's requirements.

H.8 ORGANIZATIONAL CONFLICTS OF INTEREST, AND LIMITATION ON FUTURE CONTRACTING

(a) The Contracting Officer has determined that this acquisition may give rise to a potential organizational conflict of interest. Accordingly, the attention of prospective offerors is directed to FAR Subpart 9.5 - Organizational Conflicts of Interest.

(b) The nature of this potential conflict is:

The Aeronautics Directorate (hereafter referred to as Code A) at the NASA Ames Research Center works to solve the challenges that

still exist in our nation's air transportation system: air traffic congestion, safety and environmental impacts. NASA's aeronautics research programs conduct fundamental, cutting-edge research into new aircraft technologies, as well as high level research on how to integrate more efficient air traffic management operations and innovative technologies into the Next Generation Air Transportation System (NextGen). Another program manages a portfolio of wind tunnels, flight research facilities, support aircraft and evolution of test technologies at NASA centers around the country.

One of the outcomes of this procurement is the development of strategic plans relative to Rotary Wing for NASA. These plans have potential further usefulness to NASA in future analyses work of the type specified in this contract or as may be sought by NASA for further enhancement. Thus, the awardee could have an advantage in future work using knowledge of these strategic plans. Another potential source of organizational conflict results from the fact that, in the performance of this contract, the awardee may be given appropriate access to Government Sensitive Data and/or third-party proprietary data. Additionally, the awardee may be involved in the development of or have input to specifications and requirements resulting in future procurements.

(c) To avoid, neutralize, or mitigate the potential Organizational Conflict of Interest, the following restrictions upon future contracting shall apply:

(1) If the Seller, under the terms of this contract, or through the performance of tasks pursuant to this contract, is required to develop specifications or statements of work that are to be incorporated into a solicitation, the Seller shall be ineligible to perform the work described in that solicitation as a prime or first-tier subcontractor under an ensuing NASA contract. This restriction shall remain in effect for a reasonable time, as agreed to by the Contracting Officer and the Seller, sufficient to avoid unfair competitive advantage or potential bias (this time shall in no case be less than the duration of the initial production contract). NASA shall not unilaterally require the Seller to prepare such specifications or statements of work under this contract.

(2) The Seller shall not, during the performance of the contract and for a period of three years following completion of performance thereof:

(i) Design, develop, or produce enabling technologies where it participated in developing the requirements for procurement of such technologies; or

(ii) Participate in competitions, as either a prime proposer or a proposed subSeller, based upon Government Sensitive Data, third-party proprietary data, or other non-public data of another Seller, obtained by the Seller because of the Seller's access to, and support of its performance under this contract.

(d) If, in the performance of work under this Contract, the Seller has access to Government Sensitive Data or third-party proprietary data, the Seller shall protect such data from unauthorized use or disclosure so long as it remains proprietary. In addition, the Seller shall not be permitted to use such data other than in performance under this contract, unless:

(1) It receives the explicit written permission of the owner of such data and the Contracting Officer;

or

(2) Such data has been released or otherwise made available to the public by the Government or the owner of the third-party proprietary data.

In addition, the Seller agrees that to the extent it receives or is given access to proprietary data, data protected by the Privacy Act of 1974 (5 U.S.C. 552a), or other confidential or privileged technical, business, or financial information under this Contract, it shall treat such information in accordance with any use or dissemination restrictions imposed on such information. Further, the Seller shall not submit an unsolicited proposal to the Government which is based on such data until one year after such data is released or otherwise made available to the public; further, any unsolicited proposal submitted pursuant to this provision shall identify any relationship to work produced under this Contract and any proposed use of such Data.

(e)(1) If, in the performance of work under this Contract, the Seller enters into a separate agreement with a company for the protection of Government Sensitive Data or third-party proprietary data, the Seller shall furnish a copy of that agreement to the Contracting Officer.

(2) The Seller must educate its employees, through formal training, not to divulge Government Sensitive Data or third-party proprietary data, trade secrets, confidential information, or restricted data of companies received in connection with the performance of work under this Contract. The Seller shall provide a plan to implement this training for the approval of the Contracting Officer.

(3) The Seller shall obtain from all employees having access to Government Sensitive Data or third-party proprietary data under this Contract a written agreement which shall prohibit those employees, during the term of their employment and thereafter, from disclosing to others or using for their own behalf, such data received in connection with the performance of work under this Contract, and from retaining a copy of such data after termination of their employment under this Contract.

(f) The term "Seller" as used in this clause shall include (i) the corporate or other entity executing this Contract with the Government; (ii) such entity's parent, subsidiary, affiliate, or successor entities to the extent that the parent, subsidiary, affiliate, or successor entity has responsibility for the performance of work under this Contract; and (iii) the Seller's subcontractors that (A) support RWTD, as delineated in this Contract or (B) handle, receive, reduce, interpret, or transmit data obtained, used, or produced in conjunction with RWTD.

(g) The term "Contract" as used in this clause shall include options, extensions, and any successor contracts performed or to be performed by the Seller without any other Seller intervening.

(h) The term "Data" as used in this clause, means recorded information, regardless of form or media on which it may be recorded. The term includes technical data and computer software. The term further includes Government Sensitive Data or third-party proprietary data including proprietary data, trade secret information, data protected by the Privacy Act of 1974 (5 U.S.C. 552a) and other confidential or privileged technical, business or financial data.

(i) The term "Government Sensitive Data" as used in this clause means data for which the disclosure or use is controlled by the U.S. Statute or implementing published federal regulations or NASA policy and, where so identified, includes data first produced by the Seller.

(j) The Seller's Organizational Conflicts of Interest Avoidance Plan is incorporated by reference into this contract. This Plan addresses Organizational Conflicts of Interest at the contract level. Each individual task order will state if additional Organizational Conflicts of Interest requirements exist and, if so, an additional Organizational Conflicts of Interest Avoidance Plan may be required by the Contracting Officer to address potential conflicts of interest prior to authorization of that task order.

(k) The Seller shall include paragraphs (a) through (j) of this clause in every subcontract. The Seller shall be responsible for ensuring compliance with all of the provisions of this clause by each of its subcontractors.

H.9 PATENT RIGHTS

The RFP includes the Patent Rights-Retention by the Seller Clause (FAR 52.227-11), as modified by 1852.227-11 and 1852.227-70 New Technology. It is anticipated that the Seller may have Seller background inventions that could be applied to Contract research and incorporated into deliverables under the Contract. The Government may need rights to use such Seller background inventions in order to practice technologies produced under this Contract in other Government contracts. Thus, Contracting Officer permission is required before Seller background inventions may be included in Contract deliverables. To the extent a Seller background invention has been Federally funded, the Government will receive its government-purpose license rights to practice the background invention. Where there is no Federal funding of the background invention, the Seller will identify to the Contracting Officer the rights that it proposes to grant the Government to use such invention in other Government contracts. The Government shall receive a government-purpose license to practice any Seller background invention where such Contracting Officer permission is not obtained prior to incorporating its background inventions into Seller work.
