

BDS Terms and Conditions Guide

Clause Number: C516
Effective: 1/21/2014

Source Acceptance When Shipping to a Government Entity

Seller shall ship the goods ordered under this contract directly to Buyer's customer, including a completed DD Form 250.

Seller shall provide DD250 information online at the US Government Wide Area Work Flow (WAWF) website <https://wawf.eb.mil/> and provide a WAWF screen print with shipment.

Destination codes, stock numbers and other elements of shipping instructions needed to complete the DD Form 250 (or equivalent online WAWF) (or Seller's equivalent commercial shipper, when its use is authorized) will be provided in a monthly report or will be transmitted electronically or by facsimile message.

Shipment shall not occur until a DCMA approved DD250 has been completed in WAWF.

In the event an item is ready for shipment, but appropriate shipping instructions have not been received, Seller should contact Buyer's Authorized Procurement Representative for instructions. Seller shall comply with the PS1352 Military Section.
