

**Q092**            Item Material Certification - rev 10/1/01

Seller shall include with each shipment a certificate that states that the parts and materials used in the manufacture of the goods furnished under this purchase order/contract /contract were tested, inspected, and found to be in compliance with the applicable parts and material specifications. The certificate shall also include the following information:

- (a) Part number, including revision number or letter, of the item being furnished.
- (b) Manufacturer's lot identification number of the item being furnished.
- (c) Name of the manufacturer of the material.
- (d) Raw material heat/lot/batch number.
- (e) Material specification, including revision letter or number.
- (f) Boeing purchase order/contract number.

NOTE: A mill test report that complies with the requirements of Clause Q080, Raw Material Test Results, may be substituted for this certificate.
