

Q309 Weight Verification Certificate (WVC) - rev 4/26/01

Supplier shall weigh and report the results on a Weight Verification Certificate (WVC), Form HSV-133, or a program-approved equivalent on all applicable hardware. Weighing operations must be accurate to within +/- 0.6%. Scales shall be accurate to a minimum of +/-0.3% of nominal load capacity. All items over 20 lb. shall be weighed regardless of quantity. Items provided in lots or multiples, and weighing less than 20 lb. each should be weighed at a minimum 20% sampling (minimum of 3 units) unless special requirements exist. Supplier will define all shortages, tare, and units of measure as applicable. Supplier shall complete a Weight Verification Certificate (WVC), Form HSV-133 or program approved equivalent, and provide along with the acceptance data shipped with the hardware.

A second WVC shall be provided immediately after weighing to Boeing Mass Properties by E-mail, at "HSVMassProp@HSV.Boeing.com".
