BUYER'S IN-PROCESS AND FINAL SOURCE INSPECTION REQUIRED – PRE-CAP/PRE-SEAL

Goods and Services under this Contract are subject to Buyer's source inspection at pre-cap/pre-seal (prior to installation of lid(s) or covering of the item), including those at Seller's subcontractor locations, and prior to packaging for shipment.

Seller shall furnish reasonable facilities and assistance, including Contract documentation, quality records, and related data for the safe and efficient performance of Buyer's source inspections.

Upon receipt of this Contract, Seller shall promptly notify Buyer's Supplier Quality Representative (SQR) to coordinate identified Buyer source inspection points. If an SQR does not presently service Seller's facility, Seller shall promptly notify Buyer's Authorized Procurement Representative so an SQR can be assigned.

Seller shall notify the SQR at least 48 hours, unless otherwise specified in Contract, in advance of the time that Goods or Services will be available for Buyer's source inspection.

Seller shall include evidence of Buyer's source inspection with each shipment unless specific written waiver or deferral from Buyer's Authorized Procurement Representative directs. Any written waiver or deferral shall be included with the shipment.
