Q972 Flight Critical Item Identification - rev 5/14/01

- (a) This part has been classified as a Flight Critical Item and shall be identified with the words "Flight Critical Item."
- (b) The size and style of hardware identification shall be in accordance with Buyer's drawing. If the drawing or the physical dimensions of the part prohibit direct marking of the part, Seller shall include the words "Flight Critical Item" on the identification tags.
- (c) Seller shall include the words "Flight Critical Item" on all shipping documents (e.g., Bills of Lading), packaging, and containers.
