

FLYSHEET AN ASBESTOS NOTIFICATION

Pursuant to Section 25915 of the California Health and Safety code, Buyer has provided information to its employees concerning the presence and location of asbestos-containing construction materials (ACM) in its California facilities constructed before 1979. In conjunction with this effort, a notice has been posted on the bulletin board(s) of each buyer-owned or controlled building advising users of the building about the presence and location of ACM.

Seller agrees to instruct its employees to read the bulletin board(s) in any buyer-owned or controlled buildings in which they may be working, other than on a casual or incidental basis, so that they may receive information concerning ACM in the building.
