

CODE 9
PHYSICAL AND CHEMICAL TEST REPORTS
IDENTIFIED TO SPECIFIC LOTS

When the applicable specifications establish requirements for chemical and/or physical properties, Seller shall include with the packing sheet, for each lot in each shipment, test reports or copies thereof which provide quantitative evidence that the materials shipped possess the chemical and/or physical properties required by the applicable specifications. Reports must provide manufacturer's name, specification number and revision date or change letter and must be identified to or correlated with specific lots. In the case of raw aluminum alloys only, it is not necessary to report chemical analysis results provided the chemical properties are certified to be within the limits of the applicable specifications.
