## Section 1 : SOLICITATION CLAUSES

---

107. Configuration Control (10/1/96). If one of Buyer's Part Control Number document is referenced in this solicitation, Bidder is asked to, immediately upon receipt of this solicitation, advise Buyer's authorized purchasing representative of (1) any change in the design, configuration, or performance characteristics of the goods called out in such document or (2) any change in the materials or manufacturing processes utilized in the production of such goods. Changes to be reported are those which may have been made subsequent to the date of last delivery to Buyer by Bidder of the goods called for/identified by the Part Control Number document.
