614. Lot Inspection Report (10/1/96). Seller will perform a verification of one piece for each lot delivered under this contract. In addition, Seller will record required and actual dimensional characteristics per the specification in report form for each lot. The format of the report is at Seller's discretion. Each lot inspection report will be traceable to this contract and will include the basic part number, dash number, change letter, and date code of the furnished goods. Seller will provide a copy of the lot inspection reports and identify the pieces that were verified by tag or ink stamp.
