

Section 6 : QUALITY ASSURANCE CLAUSES / CQAR

652. Assemblies Containing High-Strength Fasteners (6/15/97).

All 1/4-inch and larger externally threaded fasteners made of A286 material used on assemblies furnished under this contract must be manufactured by one of the NASA/MSFC - approved manufacturers (see clause 653) and must be tested by an independent testing laboratory upon receipt (see clause 655). A copy of the fastener manufacturer's quantitative test data for tests required by applicable procurement specifications will be furnished with each shipment.
