

Section 6 : QUALITY ASSURANCE CLAUSES / CQAR

655. Testing of High-Strength Fasteners (6/15/97).

(a) Fasteners will be tested for the following properties only. Testing will be in accordance with the corresponding paragraphs of the applicable procurement specification:

- (1) Tensile strength
- (2) Micro/macro metallurgical
- (3) Chemical analysis

(b) Seller will furnish two (2) copies of its test report, which will include, as a minimum:

- (1) This contract number
- (2) Applicable paragraphs of the specification
- (3) Total samples tested
- (4) Test results, including photographs of any failed specimens.
- (5) Summary statement of accept/reject disposition.
