Seller agrees to notify and obtain the written approval of Buyer prior to assigning or granting access to any work, equipment, or technical data generated or delivered in the performance of this contract to foreign nationals or their representatives. This notification will include the name and country of origin of the foreign national or representative, the specific work, equipment, or data to which the person will have access, and whether the foreign national is cleared to have access to technical data (DoD 5220.22-M, National Industrial Security Program Operating Manual (NISPOM)).

6. **Additional Full-Text FAR and DFARS Clauses**

(Applicable to CLINs 0113 and 0403 Only)

52.222-23 Notice of Requirement for Affirmative Action to Ensure Equal Employment Opportunity for Construction (FEB 1999). (This clause is applicable only if the contract is for \$10,000 or more.)

(b) The goals for minority and female participation, expressed to percentage terms from the Seller's aggregate workforce in each trade on all construction work in the covered area, are as follows:

(1) Goals for minority participation for each trade: 15.1%; and

(2) Goals for female participation for each trade: 6.9%

These goals are applicable to all the Seller's construction work performed in the covered area. If the Seller performs construction work in a geographical area located outside of the covered area, the Seller shall apply the goals established for the geographical area where the work is actually performed. Goals are published periodically in the Federal Register in notice form, and these notices may be obtained from any Office of Federal Contract Compliance Programs office.

(e) As used in this Notice, and in any subcontract, the "covered area" is Alaska.

252.222-7000 Restrictions on Employment of Personnel (MAR 2000)

(a) The Seller shall employ, for the purpose of performing that portion of the contract work in Alaska, individuals who are residents there of and who, in the case of any craft or trade, possess or would be able to acquire promptly the necessary skills to perform the contract.

(b) The Seller shall insert the substance of this clause, including this paragraph (b), in each subcontract awarded under this contract.

7. **Additional Special Provisions:**

A. **Public Release of Information.** All public information materials prepared by Seller shall be submitted to Buyer for clearance prior to release. These materials include, but are not limited to, technical papers and responses to news queries, which relate to work under this contract. However, once work has been cleared for public release, it need not be cleared again for later use. The information shall be used in its originally cleared context. All materials to be cleared must be sent to Buyer.

Seller shall submit the material proposed for release to the above address via a letter of transmittal setting forth: (1) to whom the material is to be released; (2) the desired date for public release; (3) a statement that the material has been approved by Seller officials for public release; and (4) the order number and prime contract number. Three copies of each item, including written material, photographs, drawings, "dummy layouts" and the like shall be submitted at least two months in advance of the proposed release date. The items submitted must be complete. Photographs shall have captions. Final approval for release or disclosure of the material cannot be given on the basis of abstracts; outlines or rough drafts will not be cleared. Materials submitted to Buyer for release purposes shall be void of all Seller logos or other attributions to the Seller.

B. **Organizational Conflict of Interest.** Purpose. This clause is to aid in ensuring that: Seller's scientific objectivity and judgment are not biased because of present or planned interests (financial, contractual, organizational or otherwise) which relate to work under this order; Seller does not obtain an unfair competitive advantage by virtue of its access to non-public Government information regarding Government program plans and actual or anticipated resources; and Seller does not obtain any unfair competitive advantage by virtue of its access to proprietary information belonging to others. Restrictions described herein shall apply to performance or participation by Seller and any of its affiliates or their successors in

interest in the activities covered by this clause as subcontractor, co-sponsor, joint venture, consultant or in any similar capacity. Information furnished voluntarily by the owner without limitations on its use, or which is available without restrictions from other sources, is not considered proprietary.

- (1) Certification Restriction: Seller shall be restricted from performing validation, verification, accreditation, or certification of any products developed or delivered under this contract. Additionally the Seller shall not serve as a software independent validation and verification (IV&V) contactor for any software developed or delivered under this contract.
- (2) Access to and Use of Government Information. If in the performance of this order, Seller obtains access to information such as plans, policies, reports, studies, financial plans, or data which has not been released or otherwise made available to the public, Seller agrees that without prior written approval of Buyer it shall not use such information for any private purpose unless the information has been released or otherwise made available to the public; compete for work, other than the Boeing contract, based on such information after the completion of this order, or until such information is released or otherwise made available to the public, whichever occurs first; submit an unsolicited proposal to the Government which is based on such information after such information is released or otherwise made available to the public; or release such information unless such information has previously been released or otherwise made available to the public by the Government.
- (3) Access to and Protection of Proprietary Information. Seller agrees that, to the extent it receives or is given access to proprietary data, trade secrets, or other confidential or privileged technical, business, or financial information (hereinafter referred to as "proprietary data") under this order, it shall treat such information in accordance with any restrictions imposed on such information. Seller further agrees to enter into a written agreement for the protection of the proprietary data of others and to exercise diligent effort to protect such proprietary data from unauthorized use or disclosure. In addition, Seller shall obtain from each employee who has access to proprietary data under this order a written agreement which shall in substance provide that such employee shall not, during his/her employment by Seller or thereafter, disclose to others or use for their benefit proprietary data received in connection with work under this order. Seller will educate its employees regarding the philosophy of Part 9.505-4 of the Federal Acquisition Regulation so that they will not use or disclose proprietary information or data generated or acquired in the performance of this order except as provided herein.
- (4) Subcontracts. Seller shall include this or substantially the same clause, including this paragraph, in consulting agreements and subcontracts at all tiers. The terms "Contract", "Contractor", and "Contracting Officer" will be appropriately modified to preserve the Government's rights.
- (5) Disclosures. If Seller discovers an organizational conflict of interest or potential conflict of interest after award, a prompt and full disclosure shall be made in writing to the Buyer. This disclosure shall include a description of the action the Seller has taken or proposes to take in order to avoid or mitigate such conflicts.
- (6) Remedies & Waiver. For breach of any of the above restrictions or for non-disclosure or misrepresentation of any relevant facts required to be disclosed concerning this order, Buyer may terminate this order for default, disqualify Seller for subsequent related contractual efforts, and pursue such other remedies as may be permitted by law or this order. If, however, in compliance with this clause, Seller discovers and promptly reports an actual or potential organizational conflict of interest subsequent to award of the order, Buyer may terminate this order for convenience if such termination is determined to be in Buyer's best interest. Seller recognizes that this clause has potential effects which will survive performance of this order and that it is impossible to foresee each circumstance to which it might be applied in the future. Accordingly, Seller may at any time seek a waiver from the Boeing Director of Supplier Management and Procurement, via Buyer by submitting a full written description of requested waiver and reasons in support thereof.
- (7) Modifications. Prior to order modification, when the statement of work is changed to add new work or the period of performance is significantly increased, Buyer may require Seller to submit to the Government through Buyer either an organizational conflict of interest disclosure or an update of the previously submitted disclosure or representation.

C. Enabling Clause for Boeing Interface Support.

- (1) It is anticipated that during the performance of this contract, Seller may be required to support meetings with other sellers and other Government agencies. Seller, as needed to protect the rights of Seller and Buyer, will negotiate appropriate organizational conflict of interest agreements.
- (2) Seller further agrees to include a clause in each subcontract requiring compliance with the provisions of paragraph (1) above, subject to coordination with the Buyer. This agreement is not intended to establish privity of contract between Seller and the Government, nor is it intended to relieve Seller of any of its responsibility to manage its subcontracts effectively.
- (3) Personnel from other sellers or from any Government agency are not authorized to direct Seller in any way.

D. Insurance. Seller shall maintain Workmen's Compensation and all occupational disease insurance as required by state law. Seller's liability insurance (including occupational disease not covered by Workmen's Compensation) shall provide for a minimum of \$100,000 per accident. Seller's comprehensive general Bodily Injury liability insurance shall provide for a minimum of \$500,000 per occurrence. Seller's automobile liability insurance shall provide for a minimum of \$200,000 per person; \$500,000 per accident; and \$20,000 for property damage. In the event that other coverages of higher minimum amounts are required by any Treaty or DoD Post, Base Camp, or Station regulations, such other coverage(s) or higher minimum amount(s) shall apply to that installation.

E. Identification of Technical Data, Computer Software & Software Documentation to be Delivered with Less Than Unlimited Rights. Except for data and software specifically identified in this contract as being delivered with less than unlimited rights, all technical data, computer software, and software documentation required to be delivered under this contract will be provided with unlimited rights.

F. Hardware, Software, Government Property & End Items. For any hardware, software, Government property, and end items delivered under this contract or shipped to Buyer or direct to the Government, use best commercial practices in packing the items to ensure they are adequately protected during shipment and handling, unless specifically instructed otherwise in this contract.

G. Travel & Travel Costs. Costs for transportation may be based on mileage rates, actual costs incurred, or on a combination thereof, provided the method used results in a reasonable charge. Costs for lodging, meals, and incidental expenses may be based on per diem, actual expenses, or a combination thereof, provided the method used results in a reasonable charge. Except as provided in FAR 31.205-46(a)(3), costs incurred for lodging, meals, and incidental expenses shall be considered reasonable and allowable to the extent that they do not exceed on a daily basis the maximum per diem rates in effect at the time of travel as set forth in: Federal Travel Regulations, prescribed by the General Services Administration for travel in the contiguous 48 United States; Joint Travel Regulations, Volume 2, DoD Civilian Personnel (Appendix A), for travel in Alaska, Hawaii, and territories and possessions of the United States; and Standardized Regulations (Government Civilians, Foreign Areas) Section 925, prescribed by the Department of State, for all other areas. The maximum per diem rates referenced above generally would not constitute a reasonable daily charge when no lodging costs are incurred, and/or on partial travel days (appropriate downward adjustments from the maximum per diem rates would normally be required under these circumstances). Costs shall be allowable only if the following information is documented: date and place of the expense; purpose of the trip; and name of the person on the trip and that person's title. Travel costs directly attributable to specific contract performance are allowable and may be charged to the contract under FAR 31.202. Airfare and rail costs in excess of the lowest customary standard, coach or equivalent fare offered during normal business hours are unallowable, except where such accommodations require circuitous routing, require travel during unreasonable hours, excessively prolong travel, result in increased cost that would offset transportation savings, are not reasonably adequate for the physical or medical needs of the traveler, or are not reasonably available to meet mission requirements. The costs of travel by Seller-owned, leased or chartered aircraft and automobiles will be governed in accordance with FAR 31.205-46(e) and (f).

Applicable to labor hour support contracts only:

Seller shall obtain prior written authorization for all travel from the responsible Integrated Product Team Leader or Cost Account Manager where expenses will be invoiced. Seller shall furnish copies of approved travel authorization upon request of The Boeing Company. Travel expenses without prior written approval shall be deemed unallowable and not paid, or if paid will be debited back to The Boeing Company.

- H. **Year 2000 Compliance.** Seller represents that any hardware, software, and firmware product delivered under this order shall be able to accurately process date/time data (including, but not limited to, calculating, comparing and sequencing) from, into and between the twentieth and twenty-first centuries, and the years 1999 and 2000) and leap year calculations to the extent that other information technology, used in combination with the information technology being acquired, properly exchanges date/time data with it. The remedies available to Buyer under this clause shall include repair or replacement of any non-compliant product discovered and made known to Seller in writing. Nothing in this clause shall be construed to limit any rights or remedies Buyer may otherwise have under this order with respect to defects other than Year 2000 performance.
- I. **First Tier Subcontracts.** Seller agrees, upon request, to render to Buyer a report listing all of Seller's first tier subcontracts, as defined in FAR 52.244-2, paragraph (a), relating to this order. This report shall include for each subcontract, the name of the supplier, a brief statement of the general scope of work contemplated there under, the estimated cost or price, the form of contract and the current status and progress thereof. Seller further agrees to furnish, upon request of the Buyer, a copy of all such subcontracts.
- J. **Export of Technical Data and Defense Services.**
- (1) It is acknowledged that conduct of GMD contract and subcontract activities (the "Program") will involve the export of technical data and defense services. When in the performance of the Program, the need arises to export technical data, including classified data, defense services, and/or program-related information all such exports shall be made in accordance with applicable U.S. export control laws and regulations. All such exports will be made pursuant to a valid export license or as otherwise authorized by applicable U.S. Government export regulations.
 - (2) When directed in writing by Buyer, Seller shall export technical data to a named foreign entity or persons in the manner and under the conditions provided for in the direction.
 - (3) As soon as practicable, and preferably seven months in advance of a specific need, Seller will identify the need to export technical data or defense services to Buyer. In the event that the timing of coordination required by Buyer before the release by Seller of data or the performance of services (including, but not limited to "Program related information") unreasonably impacts contractor performance, and such untimely coordination is determined to have been without the fault or negligence of Seller, the parties agree that the cost impact shall be considered for an equitable adjustment to the contract under the "Changes" clause.
 - (4) Seller shall include this clause in all subcontracts (suitably modified to reflect the relationship of the parties), the performance of which may require the export of technical data and/or defense services.
- K. **Compliance with Environmental Safety and Health Program Protection**
- Seller and its subcontractors shall maintain accurate accident and injury/illness records for the NMD System. For Seller work performed on Government installations, Seller shall notify DoD installation Commander, or designee, immediately of all accidents, injuries, environmental illness, or other unusual occurrence.
- (1) Seller shall conduct accident investigations and provide documentation to the host installation.
 - (2) On an annual basis, Seller shall provide OSHA 200 logs prepared by Seller and its subcontractors for the NMD Program and copies of all accident investigations to Buyer along with a listing of all other accidents/incidents related to this contract.

L. **Government Property**

- (1) **Property on Existing Contracts.** Seller and its subcontractors are authorized to use Government Property from the following contracts on a no cost (i.e., without assessment of rental charges), non-interference basis:

<u>Contract Number</u>	<u>Program or Effort</u>	<u>Remarks</u>
HQ0006-98-C-0003	NMD LSI*	NMD Basic Contract
HQ0006-95-C-0018	BMC3/SE&I **	TRW Subcontract

DASG60-98-C-0011	PLV-X	LMMS Subcontract

* All material and work-in-progress under Contract HQ0006-98-C-0003 shall be transferred “as is” to Contract HQ0006-01-C-0001.

** Refers to Government Property used for CLIN 0007 (BMC3).

- (2) **Government-Owned, Contractor-Operated (GOCO) Property.** Seller and its subcontractors are authorized use of the following GOCO facilities on a rent-free, non-interference basis:

<u>Contract Number</u>	<u>Program or Effort</u>	<u>Remarks</u>
DAAH01-97-E-0003	THAAD XBR	Raytheon Subcontract Performance
DAAH01-00-E-0001	THAAD XBR	Raytheon Subcontract Performance

(Remainder of list TBD – will contain list of contracts for which permission has been granted to use the Government property.)

- (3) **Models and Simulations.** Seller has requested the use of the following software models and simulations in the performance of this contract. To the extent that approval has not been received from the cognizant activity as of the award of this contract, BMDO will work with Seller to obtain such approval. Given the nature of models and simulations, they are being furnished on an “as is” and “as available from the cognizant activity” basis.

(List of models and simulations: TBD)

- M. **Segregation of Costs.** (applicable only to cost-reimbursement, flexibly-priced (e.g. fixed-price incentive) or letter subcontracts, involving subcontract line items funded by both RDT&E and Procurement appropriations)

The prime Government contract contains items funded by Research, Development, Test & Evaluation (RDT&E) appropriations and Procurement appropriations. Separate Contract Line Item Numbers (CLINs) and Subordinate Contract Work Breakdown Structure (CWBS) designations apply to the work funded by RDT&E and work funded by Procurement appropriations. Seller shall segregate costs for the RDT&E-funded CLINs from the Procurement-funded CLINs. Seller shall emphasize to its direct labor employees that are likely to charge time under this contract the fact that work is funded from different appropriations and that separate work accounting charge numbers have been established and are to be used pursuant to the Seller’s established labor charging and accounting systems. Similar action shall be taken to emphasize the need for segregating costs to subcontractors holding subcontracts involving both RDT&E-funded and CLINs and Procurement-funded CLINs.

N. Surveillance And Written Technical Direction

- (1) The work to be performed by Seller under this contract is subject to surveillance and written technical direction from Buyer under the conditions set out herein. Technical direction is defined as a directive to Seller within the definitions and requirements of the Statement of Work hereof which approves approaches, solutions, designs, or refinements; fills in details or otherwise completes the general description of work or information items; shifts emphasis among work areas or tasks; or otherwise furnishes guidance to Seller. Technical direction includes the process of conducting inquiries, requesting studies, or transmitting information or advice by Buyer regarding matters within the definitions and requirements of the Statement of Work. Technical direction and management surveillance shall not impose tasks or requirements upon Seller additional to or different from the general tasks and requirements stated in the Statement of Work hereof.

Technical direction to be valid:

- Must be issued in writing consistent with the general scope of the work set forth in this contract;
 - Shall not commit Buyer to any adjustment of the price or other provisions of this contract; and
 - Shall be contained on Buyer's form and signed by an authorized member of Buyer's engineering staff.
- (2) In the event any such technical direction is interpreted by Seller to fall within the clause hereof entitled "Changes", Seller shall not implement such direction, but shall notify Buyer in writing of such interpretation within ten working days after the receipt of such direction. Such notice shall include (i) the reasons upon which Seller bases its belief that the technical direction falls within the purview of the "Changes" clause; and (ii) Seller's best estimate as to revision in price, performance time, delivery schedules and other contractual provisions that would result from implementing the technical direction.

If, after reviewing the information presented pursuant to Paragraph (2) above, Buyer is of the opinion that such direction is within the purview of the "Changes" clause and considers such change desirable, unilateral direction to proceed pursuant to the "Changes" clause shall be issued by duly executed Change Notice to this contract. If Buyer determines that such direction is technical direction authorized by this clause, Seller will be directed by Buyer to proceed with the implementation of such technical direction.

In the event Buyer determines that it is necessary to avoid a delay in performance of this contract, Seller may be directed, in writing, to proceed with the implementation of the technical direction pending receipt of the information to be submitted under Paragraph (2) above. Should Buyer later determine that change direction is appropriate, written direction pursuant to the "Changes" clause hereof will be issued.

- (3) Failure of Buyer and Seller to agree on whether such direction is technical direction or a Change within the purview of the "Changes" clause shall be a dispute concerning a question of fact within the meaning of the clause hereof entitled "Disputes."

The procedure set out in this clause is the only means authorized to give technical direction to Seller under this contract. Any action taken by Seller in response to any technical direction given by any other means or by any person other than Buyer shall be at Seller's own risk.

O. The following "Disputes" provision applies only to the clauses of this contract listed below:

- Price Reduction for Defective Cost or Pricing Data
- Price Reduction for Defective Cost or Pricing Data - Modifications
- Cost Accounting Standards
- Disclosure and Consistency of Cost Accounting Practices

- (1) Any dispute that arises under or is related to this contract concerning the above named clauses that cannot be settled by mutual agreement of the parties may be decided by a court of competent jurisdiction. Pending final resolution of any dispute, Seller shall proceed with performance of this contract according to Buyer's instructions so long as Buyer continues to pay amounts not in dispute.
- (2) If a decision arising under the prime contract is made by the Contracting Officer and such decision is also related to the above named clauses of this order, said decision, if binding upon Buyer under the prime contract, shall in turn be binding upon Buyer and Seller with respect to such decision insofar as it relates to this order; provided, however, that if Seller is adversely affected by any such decision made by the Contracting Officer, and if Buyer elects not to appeal such decision pursuant to the "Disputes" clause of the prime contract, Buyer shall promptly notify Seller. If Seller thereafter timely requests Buyer to appeal such decision, Buyer shall do so. If Buyer appeals such decision, whether at its election or at Seller's request, any decision upon such an appeal, if binding upon Buyer under the prime contract, shall in turn be binding upon Buyer and Seller under this order with respect to such decision insofar as it relates to this contract.
- (3) If any such appeal is denied or otherwise decided adversely to Seller's interest, or if Seller is otherwise adversely affected by any decision made by any representative of the Government on any decision arising under the prime contract which is also related to this order, from which an appeal under the "Disputes" clause in the prime contract is not available, said decision, if binding upon Buyer under the prime contract, shall in turn be binding upon Buyer and Seller with respect to such decision insofar as it relates to this order; provided, however, that if Seller is adversely affected by any such decision, and if Buyer elects not to bring suit against the Government with respect to such decision, Buyer shall notify Seller with reasonable promptness. If Seller timely requests Buyer to bring suit against the Government, Buyer shall do so. If Buyer brings suit against the Government with respect to any such decision, whether at its election or at Seller's request, a final judgment in any such suit, if binding upon Buyer under the prime contract shall in turn be binding upon Seller and Buyer under this order with respect to the decision insofar as it relates to this contract.
- (4) If necessary for jurisdiction under the Contract Disputes Act, Buyer shall certify Seller's claim and proceed with the appeal only if Buyer is satisfied that the Seller's claim is in good faith, that the supporting data are accurate and complete to the best of its knowledge and belief, and that the amount requested accurately reflects the contract adjustment for which Buyer believes the Government is liable. Buyer's position on whether or not it is satisfied shall be reasonable and shall not be used to arbitrarily deny Seller certification. Seller shall indemnify Buyer against any liability incurred as a result of acting hereunder at Seller's request, including furnishing such certification.
- (5) If any such appeal or suit is taken or brought by Buyer, whether at its election or at Seller's request, Seller shall assist Buyer in its prosecution thereof in every reasonable manner and Seller shall be afforded reasonable opportunity to participate in the prosecution thereof to the extent Seller's interest may be affected. To the extent requested by Buyer, Seller shall prosecute for Buyer any appeal or suit taken or brought at Seller's request and, in such event, Buyer shall assist Seller in every reasonable manner. All costs and expenses incurred by Seller and Buyer in prosecuting any appeal or suit taken or brought at Seller's request shall be paid by Seller. Where possible, Buyer shall in good faith consult with Seller concerning the presentation to the Contracting Officer or other cognizant representatives of the Government of the matters referred to in Paragraphs (2) and (3) above to the extent they may affect Seller's interest.
- (6) If as a result of any decision or judgment which is binding upon Seller and Buyer, as above provided, Buyer is unable to obtain reimbursement from the Government under the prime contract for, or is required to refund or credit to the Government, any amount with respect to any item of cost or fee for which Buyer has reimbursed Seller, Seller shall, on demand, promptly repay such amount to Buyer.
- (7) The rights and obligations described herein shall survive completion of and final payment under this contract.

P. Plant Rules And Government Clearance

Employees and agents of Buyer and Seller will, while on premises of the other, comply with all plant rules and regulations, including, where required by Government regulations, submission of appropriate clearance from the U.S. Department of Defense or other concerned federal agency.

For Seller work performed on Government installations, Seller shall comply with all applicable DoD, Federal, State, local and host installation regulations and requirements relating to the safety and health of Seller and subcontractor employees and the host installation.

- (4) Negative reports are required.

T. Communication with Buyer's Customer

- (1) Buyer shall be solely responsible for all liaison, coordination, status requests, and other communication with, and deliveries to, its Customer (*i.e.*, the Ballistic Missile Defense Organization, the BMDO NMD supporting contractors, and the U.S. Government "user" commands are referred to herein as the "Customer"), concerning the NMD prime contract (HQ0006-01-C-0001), this subcontract, and any related lower-tier subcontract. Seller and its lower-tier subcontractors shall not contact the Customer, or otherwise attempt to lobby, intervene in or status contract actions, negotiations or discussions, or otherwise release information to such Customer, either directly or indirectly (except through Buyer), without Buyer's written direction. Seller agrees that no public announcement will be made except through, or as approved in writing by Buyer.
- (2) Exceptions to the general rule stated in paragraph (1) shall be made: (i) when an authorized Buyer person is present at a face-to-face meeting, or when an authorized Buyer person is involved as a participant in the telephone conversation, and consents to the communication; or, (ii) when a release relates solely to Seller's internal processes, proprietary rates expressly excluded from release to Buyer under subcontract terms and conditions, or Government allegations of the Seller's or a lower-tier subcontractor's misconduct, or (iii) pursuant to a properly issued subpoena or other order of a court of competent jurisdiction, or (iv) as is required to respond to questions initiated by a Federal auditor in the course of a program audit. In the event an exception applies, written notice of any statement and/or the questions and answers will be provided by Seller to the cognizant authorized Buyer Procurement Agent within two business days of the communication.
- (3) Further, except as required by law, no release of information, or confirmation or denial of same, with respect to the prime contract, this subcontract or a related lower-tier subcontract, or the subject matters thereof, will be made by Seller without the prior written approval of Buyer.
- (4) Seller agrees to incorporate the substance of this clause, suitably adjusted, in all lower-tier subcontracts under this contract.

U. Advance Change Adjustment Agreement

(Applies only when a cost-plus-fixed-fee contract over \$5,000,000 is placed.)

- (1) **Purpose.** This special provision establishes a procedure by which the parties agree to change this contract according to the clause entitled "Changes-Cost Reimbursement" without equitable adjustments to the contract price as specified in this subparagraph. The parties agree that each change not exceeding \$250,000 that also does not affect the contract delivery, performance schedules or any other contract provision shall be a change having no effect on the contract price. There will be no fee adjustment for each change not exceeding \$250,000 that does not affect contract delivery, performance, or any contract provision.
- (2) **Procedure.** When it is proposed to make a change under the "Changes-Cost Reimbursement" clause and both parties agree that such a change will require no equitable adjustment as contemplated by paragraph (1) of this special provision, Seller shall submit an abbreviated proposal or offer to accomplish the proposed change without an equitable adjustment. If Buyer concurs that no adjustment is necessary, Seller's proposal may be accepted in the appropriate written document.

The modification shall:

- (i) Be issued under the "Changes-Cost Reimbursement" clause;
- (ii) Cite this special provision;
- (iii) Reference Seller's proposal or offer; and
- (iv) Direct the changes to be made.

The issuance of the modification shall constitute acceptance of Seller's proposal or offer, shall be binding on both parties, and shall be a full, complete and final settlement for the directed changes.

A. THIS REQUIREMENT WILL BE IMPOSED ON ALL SUBCONTRACTS CONTAINING INFORMATION DESCRIBED IN THIS SECTION.

B. For Official Use Only (FOUO) is official government information that does not meet requirements for classification but still requires protection. Missile Defense Agency (MDA) Program-Related Information (PRI), Privacy Act (PA), as well as other information falls in this category.

C. MDA Program-Related Information (PRI) is information that is not classified but requires protective measures to prevent unofficial disclosure (sometimes also referred to as unclassified controlled information or UCI). It is information concerning intentions, capabilities, technology, or activities that must be protected from loss, misuse, or unauthorized access or modification in order to keep an adversary from gaining a significant military, economic or technological advantage. This could include information associating technology(ies) to components, sub-systems or systems information revealing components/configurations of a sub-system or system; identification of out-year funding or redirection of funds to specific components or projects; or information revealing MDA plans, intentions or activities relating to DoD or MDA program operations or contingencies. All MDA PRI is a subset of For Official Use Only information.

D. Under certain conditions, MDA Program-Related information may be released to the public; however, it must be submitted in writing to the Buyer for review by MDA/DC, who will coordinate with the Contracting Officer's Representative (COR) and other appropriate MDA elements prior to official release.

II. Identification Markings.

An unclassified document containing MDA Program-Related information, if marked FOUO, will be marked "For Official Use Only" on the outside of the front cover (if any), on the first page, on each page containing FOUO information, on the back page and on the outside of the back cover (if any). III. Transmission/Dissemination/Reproduction.

A. Authorized contractors, consultants and grantees may transmit/disseminate MDA Program-Related information internally to each other to DoD components and officials of DoD components who have a legitimate need for the information in connection with this contract. The following general guidelines apply:

1. External electronic transmission of Controlled Unclassified Information (voice, facsimile, and data) should be by approved secure communication systems when practical. Non-secure communications circuits may transmit CUI only when secure communications circuits are not readily available to satisfy mission requirements. This should be accomplished using NIST-validated or NSA-endorsed encryption or by other methods approved by MDA/GMF.

2. MDA Program-Related and PA information should be transmitted over secure facsimile equipment.

3. MDA Program-Related information may be transmitted, processed and stored internally on Automated Information Systems (AIS), electronic mail and other similar systems or networks 1) when distribution is to an authorized recipient and 2) if the receiving system is protected by either physical isolation or a password protection system. Holders will not use general, broadcast or universal mail addresses to distribute MDA Program-Related and PA information. Discretionary access control measures may be used to preclude access to MDA Program-Related files by users who are authorized system users but who are not authorized access to MDA Program-Related and PA information. External transmission of MDA Program-Related and PA AIS information should be secured using NIST-validated or NSA-endorsed encryption or other methods approved by MDA/GMF.

4. Internet should be equated with "Public Access". Information must be reviewed and officially approved for public release before placing on electronic systems.

5. MDA Program-Related information may be sent via US Postal Service or commercial carrier as long as the shipping package is not marked as containing MDA Program-Related material.

6. Reproduction of MDA Program-Related and PA information may be accomplished on unclassified copiers or within designated government or contractor reproduction areas.

IV. Storage. During working hours, MDA Program-Related and PA information shall be used in a manner that limits access by persons who do not have an official need for the information. During non-working hours and when internal building security is provided, MDA Program-Related material may be filed with other unclassified records in unlocked files or desks. When there is no internal building security, locked buildings or rooms provide adequate after-hours protection or the material can be stored in locked receptacles such as cabinets, desks, or bookcases.

V. Disposition.

A. When no longer needed, FOUO, non-MDA Program-Related, information will be disposed of in a manner to hinder reconstruction, e.g., by tearing each sheet into pieces and placing in a recycle or trash container or by initializing, degaussing or shredding magnetic media. MDA program-related and PA information will be disposed of as classified waste, or by any method that will prevent reconstruction. If the contractor does not have the facilities for proper destruction of MDA program-related and PA information (waste material), it may be returned to the MDA office for proper disposition once official notification and justification has been received.

B. Removal of the FOUO or MDA Program-Related status can only be accomplished by the government Office of Primary Responsibility, (OPR). The MDA COR will review and/or coordinate with proper authority the removal of FOUO or MDA Program-Related status for information in support of this contract.

VI. Unauthorized Disclosure. Government and contractor personnel must act to protect MDA Program-Related and PA information under their control from unauthorized disclosure. Government and contractor organizations must inform the COR and MDA/GMF of any unauthorized disclosures of MDA Program-Related and PA information in support of this contract. Unauthorized disclosure, intentional disregard or gross negligence in the handling of MDA Program-Related information does not constitute a reportable security violation. This requirement does not apply to use of commercial off the shelf (COTS) equipment and services that do not have export limitations imposed by U.S. National Security and/or export/disclosure policy guidelines. Access to unclassified MDA program related information must be limited to persons that have a minimum Secret level clearance; or have been the subject of a favorable completed National Agency Check (NAC) or a more stringent personnel security investigation (access pending completion of NAC and final clearance determination is authorized) or contractor equivalent.
